These Amendments to the Area Plan Update are hereby submitted to the California Department of Aging for approval, in accordance with State law and State directives. The Governing Board and the Advisory Council have each had the opportunity to participate in the planning process and to review and comment on the Area Plan. The Governing Board, Advisory Council, and Area Agency Director actively support the planning and development of community-based systems of care and will ensure compliance with the assurances set forth in this Area Plan. The undersigned recognize the responsibility within each community to establish systems in order to address the care needs of older individuals and their family caregivers in this planning and service area.

SECTION 1. MISSION STATEMENT

The mission of the California Department of Aging is:

“To provide leadership in addressing issues that relate to older Californians; to develop community-based systems of care that provide services which support independence within California’s interdependent society, and which protect the quality of life of older persons and persons with functional impairments; and to promote citizen involvement in the planning and delivery of services.”

The mission of Agency on Aging Area 4 is:

Enriching the lives of older adults and people with disabilities by FOSTERING networks of support, ADVOCATING for individual choice, COLLABORATING with others, ENSURING equity, and STRIVING to do so with conviction.

SECTION 2. DESCRIPTION OF THE PLANNING AND SERVICE AREA (PSA)

Provide a description of the physical and demographic characteristics and unique resources and constraints of the PSA.

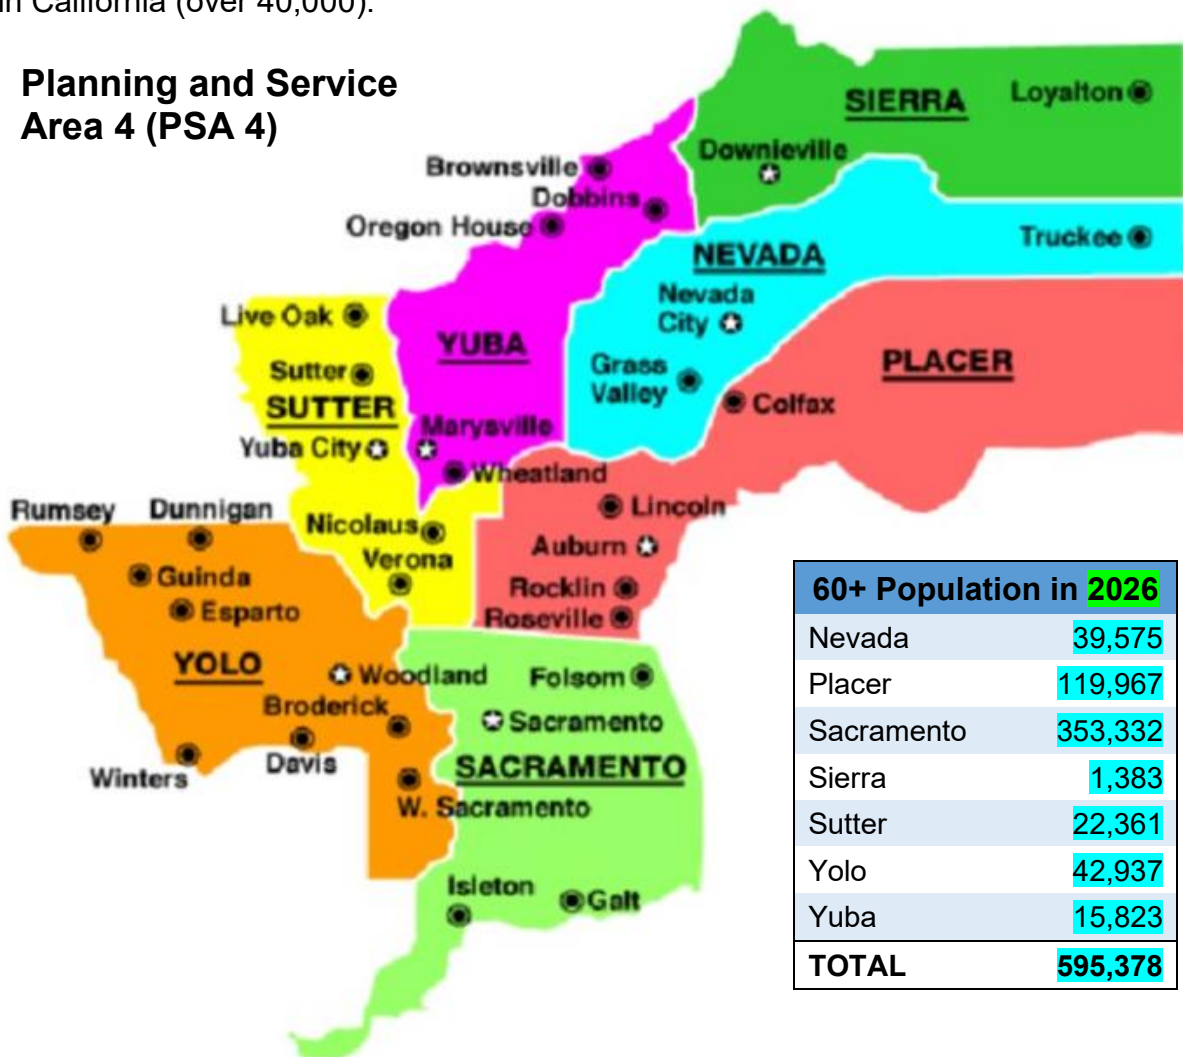

Physical Characteristics

With its main office located just 5 miles from the State Capitol, Agency on Aging Area 4 (AAA4) is one of thirty-three Area Agencies on Aging (AAAs) in California. Area 4 refers to Planning and Service Area 4 (PSA 4), which includes seven counties in Northern California: Nevada, Placer, Sacramento, Sierra, Sutter, Yolo and Yuba. While eleven other AAAs in the state have multi-county service areas, none contain as many counties as AAA4.

The growing greater Sacramento region overlaps two neighboring counties (Yolo and Placer) and contains more than a dozen cities. This metropolitan area extends to Folsom and Lincoln in the east, North Highlands in the north, West Sacramento in the west and Elk Grove in the South.

In addition, PSA 4 includes several distinct micropolitan communities outside the greater Sacramento region, including Auburn, Truckee, and Grass Valley/Nevada City to the east; the Yuba City/Marysville area to the north; Winters, Davis and Woodland to the west, and Galt to the south. Finally, there are dozens of smaller townships and unincorporated areas scattered across the service area. In fact, there are more seniors living in remote rural areas in Area 4 than in any other PSA in California (over 40,000).

Planning and Service Area 4 (PSA 4)

60+ Population in 2026	
Nevada	39,575
Placer	119,967
Sacramento	353,332
Sierra	1,383
Sutter	22,361
Yolo	42,937
Yuba	15,823
TOTAL	595,378

Covering 6,532 square miles, AAA4 is one of the largest PSAs in the state. It is also among the most geographically varied. Sacramento, Sutter, Yolo, Western Placer and Western Yuba counties are fertile lowlands where agriculture thrives; Nevada, Eastern Placer and Eastern Yuba counties are in the foothills and mountainous areas of the Sierra-Nevada Mountain Range. The western half of Sierra County is mountainous while the eastern half is high desert.

With varied geography comes varied weather patterns. In the summer, wildfires often threaten homes in the Sierras, and extreme heat is a concern for elderly people in the valley, particularly those unable to afford air conditioning. In the winter, lowland areas are subject to flooding, dense patchy fog can be a hazard in the foothills, and heavy snow in the high country makes roads impassable at times. The extreme geographic isolation of Downieville and Loyalton in Sierra County and of North San Juan in Nevada County makes access a challenge regardless of weather.

Demographic Characteristics

For the first time in history, there are now more older people (age 60+) than children (under 18) residing in our service area. We continue to witness a pronounced increase in the Older Adult population. The youngest Baby Boomers are celebrating their 60th birthdays this year (2024) while the oldest are turning 78. Thus the “arrival” of their successors (Generation X) is the primary driver of growth in the chart below. By 2050, some 765,152 people age 60+ are projected to be living in our seven-county region – an increase of 207,599 over three decades at an average pace of 576 people/month. In contrast, the number of children is expected to fall from 549,089 to 546,831 over that same 30-year timeframe as birthrates gradually decline.

This means the *proportion* of older people will also continue rising. About 24% of the 2,495,436 people living in our service area today (2024) are age 60 or older; by 2050, the ratio is projected to be 27%. As a result, senior citizens will likely play an even greater role in every aspect of society.

The eldest group of older residents is of particular concern, for they utilize a sizeable share of Long-Term Services & Supports (LTSS). Here, the 2020 to 2050 projections are for exponential growth that increases among the oldest old on the order of: a 124% increase for people in their 80s, a 147% increase for folks in their 90s, and nearly a 5-fold increase in those age 100+ (from 414 local centenarians to over 2,000).

These remarkable numbers can be explained in a single word: **longevity**. Until the COVID-19 pandemic (2020), tremendous advancements in modern medicine had caused life expectancy at birth to increase by 12.1 years since the start of the Baby Boom in 1946 (from 66.7 to 78.8). The pandemic was particularly devastating for frail and elderly Americans. Yet across age groups, Blacks and Hispanics were more than three times as likely to die from COVID as their White peers, as shown in the graph below.

Life expectancy at birth in years, by race/ethnicity, 2008-2022

Note: Starting with 2018 data, race is presented as single-race estimates (only one race was reported on the death certificate). Persons of Hispanic origin may be of any race but are categorized as Hispanic for this analysis; other groups are non-Hispanic. See Methods section of "How does U.S. life expectancy compare to other countries?" Data for 2022 are provisional.

Health System Tracker

The entire age 60+ population for the State of California in 2023 is projected to be 9,146,021 people. Thus PSA 4 is home to 6.2% of all older Californians. Table B below shows how AAA4 compares with the rest of the State with regard to several key demographic variables. The percentages are about the same when it comes to men and women, people below 125% of poverty, unemployment, institutionalization, self-care disabilities and raising a grandchild.

There are significantly smaller proportions of ethnic seniors and non English-speaking seniors in PSA 4 than there are in California as a whole. On the other hand, AAA4 continues to have a larger proportion of isolated rural seniors (more than any other PSA, as mentioned previously) and veterans. The latter is to be expected given that McClellan Park and Mather Field in Sacramento County are former military bases; also, a number of veterans who served at Beale Air Force Base in rural Yuba County have settled in the area.

According to the Centers for Disease Control (CDC), 53 million Americans were caregivers for a spouse, elderly parent or relative, or special-needs child in 2021. Assuming a similar ratio exists in our State and region, California should have about 6.2 million such family caregivers, and PSA 4 should have about 400,000. The CDC classifies family caregiving as a public health issue, saying:

Caregiving can affect the caregiver's life in a myriad of ways including his/her ability to work, engage in social interactions and relationships, and maintain good physical and mental health.¹ Caregiving also can bring great satisfaction and strengthen relationships, thus enhancing the caregivers' quality of life. As the population ages and disability worsens, it is critical to understand the physical and mental health burden on caregivers, the range of tasks caregivers may perform, and the societal and economic impacts of long-term chronic diseases or disability.²

Unique Resources and Constraints

AAA4 benefits from its proximity to the State Capitol. Not only can Agency staff, Advisory Council and Governing Board members easily attend important legislative hearings on aging issues, but the offices of statewide representatives from numerous agencies, departments, commissions and other groups are accessible as well.

As a direct result of being near the Capitol, there are a large number of very highly educated people who have retired from careers in government and lobbying. The Agency also benefits directly from higher education by partnering with UC Davis, CSU Sacramento and American River College in the form of special projects and student internships.

AAA4 is unique in that it includes more counties than any other PSA in the state. This truth brings benefits as well as challenges. When the interests of individual counties coincide, strong alliances can be made. When those interests conflict, energies and resources may become divided.

The regional diversity of the service area makes it an ideal testing ground for new programs and services; if something works in ethnically diverse downtown Sacramento, in isolated small-town Sierra County and everywhere in-between, then it ought to work just about anywhere in the State. At the same time, resources must be spread thin if services are to be provided to all seven counties (and to the individual communities within those counties) in an equitable way. Serving frail elders who live in remote rural areas poses the greatest challenge; providing home-based programs far from town is often impossible, and bringing people into town for services is often impractical.

The Service System (via the Area Agency on Aging)

AAA4 is part of the national Aging Services Network which first began providing Older Americans Act programs in 1973. This network (service system) varies somewhat across our seven counties. Sacramento offers our most comprehensive example as it is our largest County. The diagram on the following page illustrates the federal and state-funded programs that are expected to be available via AAA4 in SFY 2024-25. In every case, the programs shown are available to the client/consumer at no cost to them. With the exception of CalAIM, these are NOT welfare programs, they are social programs open to people who need them, regardless of assets or income. In most cases, the only eligibility requirements are that individuals live in the service area and be 60 years of age or older. At the same time, Older Americans Act programs do have prioritization criteria; where waiting lists exist, those with the greatest need are to be served first.

Other Service Delivery Systems

Area Agencies on Aging are, of course, just one of many entities providing services to older adults and people with disabilities. All seven Counties administer Adult Protective Services (APS), In-Home Supportive Services (IHSS) and Public Assistance (e.g. CalFresh, MediCal and General Assistance). Many Counties also offer programs through Behavioral Health, Emergency Services, Employment, Library, Public Health, Transportation and Veterans departments/branches. Programs administered by the State of California via local providers include Community-Based Adult Services (CBAS), Caregiver Resource Centers (CRCs), Independent Living Centers (ILCs), Multipurpose Senior Services Programs (MSSP), Program for the All-Inclusive Care of the Elderly (PACE), Regional Centers and the Senior Community Service Employment Program (SCSEP).

In the private sector, well-known fee-for-service offerings include Adult Day Care (ADC) & Adult Day Health Care (ADHC), Home Care Agencies, Long-Term Care Planning, Meal Delivery, Medical Transportation, Placement Agencies, Residential Care Facilities for the Elderly (RCFEs), Skilled Nursing Facilities (SNFs).

Challenges and Successes in Local System Development

Our most fundamental challenge is that the Aging Services Network itself is extremely fragmented, both by design (in the form of inflexible funding silos) and by the application of that design across interwoven layers of federal, state, county and municipal jurisdictions. According to the Administration for Aging (ACL), “individuals trying to access LTSS frequently find themselves confronted with a bewildering maze of organizations and bureaucratic requirements at a time of vulnerability or crisis which can result in people making decisions based on incomplete, and sometimes inaccurate, information about their options.”

In our state, the complexity of public supports and services is particularly convoluted, as evidenced in a number of studies on the subject, including the Senate Select Committee on Aging and Long Term Care’s 2015 report entitled *A Shattered System: Reforming Long-Term Care in California*.

Typically, when folks need help they don’t know free help exists. This is largely because the free options are publicly funded services that don’t have to publicize to ensure a steady stream of clientele. Even those programs that do have a marketing budget (e.g., HICAP) see their efforts dwarfed by the omnipresent advertising of private sector stakeholders. People are using the resources they can see and they can afford.

The best available strategy to raise the visibility and the collective impact of all free-help options is to link them together through a local No Wrong Door approach that is supported by the State and by the federal government. An ADRC provides a proven mechanism to build such a network.

SECTION 3. DESCRIPTION OF THE AREA AGENCY ON AGING (AAA)

Describe how the AAA, on behalf of all older individuals, adults with disabilities, and their caregivers in the PSA, carries out its role as leader on aging issues.

Agency on Aging Area 4 differs from many other AAAs in that it is a stand-alone Joint Powers Authority with nonprofit status; it is not positioned inside a county department. Consequently, AAA4 enjoys greater flexibility in its operations, attracts a different type of employee and is viewed somewhat differently in the community. At the same time, the agency's joint powers status ties it directly to the county supervisors, adding strength and credibility while also assuring organizational accountability.

As noted in Section 2, Agency on Aging / Area 4 encompasses a large segment of California that is both geographically and socially diverse. It is a collection of sparsely, moderately and heavily populated counties, but each one has near equal voice in the governance of the whole. In this regard, AAA4 essentially acts as an alliance between seven independent jurisdictions. While the Department of Aging may see us as a singular homogenous entity, we see ourselves as a compilation of seven individual counties.

Our Leadership Role

AAA4 was established in 1973 as one of the six original agencies on aging in the state of California. Ten years later the agency was restructured as a Joint Powers Authority (JPA) and subsequently received non-profit status. AAA4 has a 17-member Governing Board composed of County Boards of Supervisors and their appointees representing their respective counties of Nevada, Placer, Sacramento, Sierra, Sutter, Yolo and Yuba. There is also a 35-member Advisory Council with representatives from each county. They are appointed by County Boards of Supervisors and commissions on aging; there are 6 member-at-large seats which are filled through selection by the Council's Executive Committee.

The Governing Board sets agency policy and is responsible for ensuring that AAA4 fulfills the mandates of the Older Americans and Older Californians Acts. The Advisory Council advises the Board on matters relating to the planning, delivery and monitoring of services for seniors and caregivers. The Council also serves as an independent, non-partisan advocacy body on behalf of all older persons residing in the planning and service area.

Standing Governing Board committees include audit/finance, personnel, grants review and joint program evaluation. Standing Advisory Council committees include area plan, diversity and legislative. Ad hoc and task force committees are appointed as needed.

The AAA4 office is located in Sacramento and is under the direction of the Executive Director and Assistant Director with regular input from Administrators for: ADRC & Case Management, Contracted Services & Yuba-Sutter Nutrition, Fiscal, Digital Connections & Health Promotion & Ombudsman, Human Resources, Information Technology and Operations. Together, this nine-member group is known as the Leadership Team.

Toward Community-Based Systems of Care

The overarching goal of AAA4 is to work toward comprehensive coordinated systems of home and community-based care for older adults throughout PSA 4. Such systems should offer a range of services available to everyone, regardless of income. Older people should receive individualized assistance and referrals to other agencies where appropriate. Systems of care should be coordinated to ensure that all available public and private resources are maximized and that services are easily accessible through visible points of contact. AAAs are directed to provide leadership, facilitating collaboration among key stakeholders to meet the particular needs of local communities.

PSA 4 does not have just one community; it has many. And, each one is geographically and/or politically distinct and separate from the others. With the exception of Sierra, each county has its own commission on aging or equivalent body which advises the Board of Supervisors on senior issues. These commissions provide a vital link between AAA4 and the concerns of older people and caregivers at the local level. These organizations can be effective advocates for coordinated systems of care.

In cooperation with local commissions on aging, AAA4 designates “focal points” within each county. Focal points are the hubs of activity; they are the major senior or community centers where older adults can access programs and services, including core services (i.e., information and assistance, transportation, and nutrition). All AAA4-funded providers are expected to coordinate with the focal points in their area, and some have their offices and programs on-site.

AAA4 currently contracts with four organizations to provide Senior Information and Assistance (I&A) region-wide. Face-to-face assistance is primarily available in Auburn, Grass Valley, Sacramento and Yuba City. Local Senior I&A programs are intended to be single entry points not only for people 60 and older but for anyone with questions about senior services. The I&A programs also maintain directories which raise consumer awareness and help other agencies make appropriate referrals.

A Constellation of ADRCs

As stated at the end of Section 3, the best available strategy to raise the visibility and the collective impact of all free-help options is to link them together through a local No Wrong Door approach that is supported by the State and by the federal government. AAA4 has five designated Aging & Disability Resource Connections (ADRCs) that serve this purpose.

A successful ADRC makes a resource-centered system function as though it were a person-centered system, and in doing so, it provides a critical lifeline for the largest segment of the older population – those who don’t qualify for “free” case management (via MSSP) and those who can’t afford to pay for geriatric care management out of pocket.

In collaboration with all three local Independent Living Centers and other Core Partners, AAA4 is able to offer Enhanced Information & Assistance, Person Centered Options Counseling, Short-Term Service Coordination and Transition Support in six of our seven counties (see additional details in Section 7: Goals and Objectives).

- ADRC of Nevada County
- ADRC of Placer County
- ADRC of Sacramento County
- ADRC of Yuba-Sutter Counties
- ADRC of Yolo County

County Connections

For many years, the Agency has effectively utilized County Workgroups to gather local input on needs, priorities and funding recommendations. These Workgroups are ad hoc sub-committees led by AAA4 Board Members (County Supervisors of their appointees) who determine the frequency and duration of the meetings and who decide whether to invite Funded Partners and other stakeholders, such as County Staff. An Agency staff member is assigned to each County Commission on Aging to help facilitate ongoing coordination of efforts and to share best practices. Currently, AAA4 is also a subcontractor of Placer, Sacramento and Yolo counties for the Access to Technology services (ATT) program.

The Health Care Sector

AAA4 aspires to leverage its existing network of service providers to become a Community Care Hub – an organization that acts as an intermediary between health payors and community-based organizations. The common goal is to reduce Emergency Room visits, hospital readmissions and hospital stays. AAA4 offers several evidence-based health promotion programs aimed at teaching folks how to prevent serious injuries due to falls (a leading cause of trauma center visits among older adults) and how to manage chronic conditions such as diabetes. Help is also available for people being discharged from the hospital through the Nevada, Placer, Yolo and Yuba-Sutter ADRC Care Transitions service. However, funding for these efforts is very limited and better coordination with local health systems is needed to get support to at-risk people when they need it most.

Under contract with Anthem Blue Cross, AAA4 is poised to begin providing CalAIM Community Supports in the summer of 2024. This Nursing Facility Transition to Home program will work to transition higher functioning clients back to a home environment. AAA4's costs will be reimbursed on a per member per month basis. This proof-of-concept project is intended to establish a foundation from which additional service lines can be developed in the future, not only via CalAIM but through Medicare Advantage Plans as well as private insurance carriers.

A Strategic Plan for our Region

In 2023 AAA4's Governing Board developed and adopted a three-year Strategic Plan to chart the course of the Agency as it emerges from the COVID-19 pandemic while also bracing for a surge in demand for Long-Term Services and Supports (LTSS) caused by the first members of Baby Boom generation turning 80 years old. The goals of this 2024-2027 Strategic Plan are:

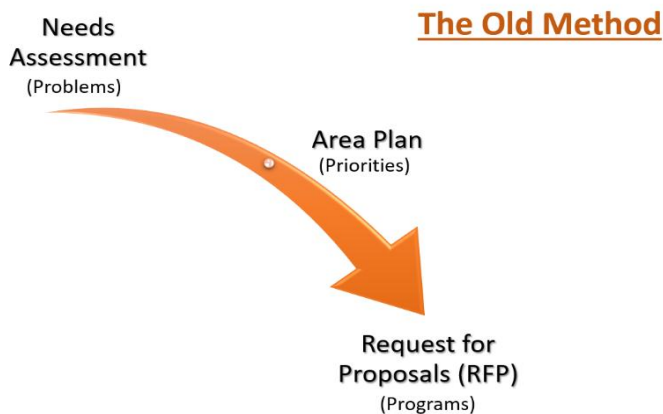

- 1) Strengthen our long-term fiscal sustainability through revenue-generating partnerships.
- 2) Communicate the added value of strategic partnerships to attract new partnerships.
- 3) Advance the intersectional principles of Diversity, Equity, Inclusion and Accessibility (DEIA).
- 4) Implement evidence-based evaluation methods to increase efficiency and effectiveness of service delivery.

SECTION 4. PLANNING PROCESS & ESTABLISHING PRIORITIES

Provide an overview of how the AAA conducts the planning process, establishes priorities, the factors influencing the AAA's priorities, the AAA's plans for managing increased or decreased resources, and provides opportunities for public involvement in the planning process.

The Three-Step Planning Process

All Area Agencies on Aging (AAAs) employ a planning process that involves three major elements. First, a comprehensive **Needs Assessment** is done to better understand the challenges older adults are experiencing relative to their ability to maintain independence with safety, health and dignity. Second, each AAA determines how best to utilize its resources to address the needs and challenges that exist, then writes an **Area Plan** which reflects its goals and priorities and describes the specific ways it intends to advance them over the course of a multi-year planning cycle. Third, the AAA conducts a procurement process (usually in the form of a **Request for Proposals** or RFP) to establish contracts with suitable public or private entities to deliver any Older Americans Act services that will not be provided directly by the AAA itself.

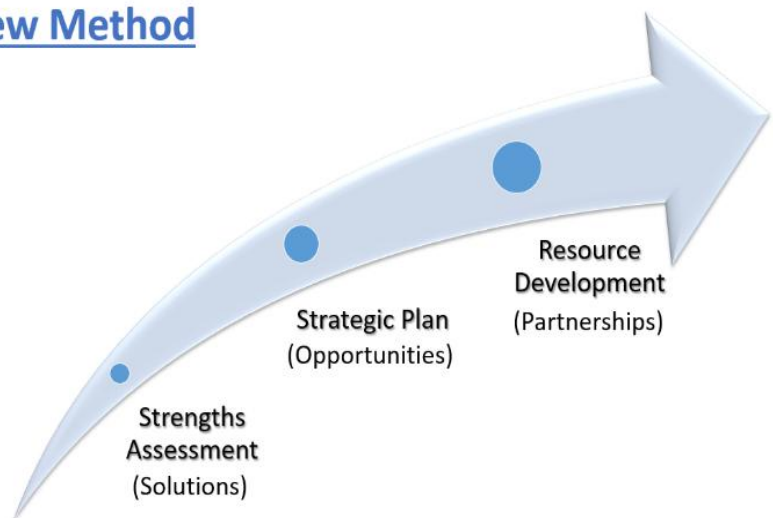

This three-step process is inherently reductionist because no matter how broad the Needs Assessment may be, the subsequent Area Plan splinters the results into OAA funding silos in preparation for further refinement into pre-defined service categories for inclusion in the RFP. As a result, the Agency largely ends up funding the same organizations to offer the same programs year after year, cycle after cycle, even as real peoples' problems deepen and spread.

In January of 2021, the Governor's Office released the Master Plan for Aging (MPA) which is intended to serve as "a 'blueprint' for state government, local government, the private sector, and philanthropy to prepare the state for the coming demographic changes and continue California's leadership in aging, disability, and equity." (source: <https://mpa.aging.ca.gov/>)

The Master Plan makes clear that no single organization (including the State itself) is capable of "solving" the systemic challenges associated with Housing, Health, Inclusion & Equity, Caregiving and Affording Aging. However, organizations working together deliberately and strategically are capable of chipping away at major barriers in ways that have meaningful impacts on individuals and families.

A New Method

The MPA has given us newfound optimism. By focusing on solutions, seeking out strategic opportunities and actively helping our Funded Partners develop the resources they need to be fiscal sustainable, we believe we can embrace an expansionist approach that will work to the benefit of all parties.

Following the Local Playbook

The Master Plan for Aging is primarily directed at statewide initiatives; a companion document called the Local Playbook is meant to help guide local advocates and jurisdictions. The Playbook contains these seven “plays” or steps:

1. Engage Your Local Leaders

“Collaborative, and cross-sector partnerships are the key to implementing successful projects, policies, and initiatives.”

- a. Beginning in December 2021, AAA4’s Strengths Assessment Project Design Team first consulted with representatives from AARP California, the Alzheimer’s Association of Northern California, and the California Foundation for Independent Living Centers (CFILC).
- b. In February of 2022, meetings were then held with key Human Services staff from all seven counties and with the Executive Directors of the three Independent Living Centers: FREED, PIRS & RIL.

2. Explore Local Data

“Meaningful metrics are the foundation of project planning and evaluation.”

- a. The AARP Livability Index provided useful, high-level county data on the various “domains.” However, livability scores are difficult to change, so they were not deemed to be practical metrics for AAA4.
- b. AAA4 has been conducting needs assessments since 1973. The unmet needs of older adults and family caregivers are well-known and have not varied widely over time. Thus a decision was made to focus on actionable data, meaning data that directly supports the selection, implementation and evaluation of successful service models.

3. Review Local Age-Friendly Models

“Before developing your own plan, it’s important to get to know your own community, what work has already been done there, and which priorities have been identified.”

- a. One of the defining features of AAA4’s Strengths Assessment has been engaging the full Advisory Council & Governing Board in the review process by organizing guest presentations on all five goals. Beginning in March 2022 and concluding in July 2023, numerous pre-existing programs and initiatives that have demonstrated their success were featured. Topics were restricted to local efforts being spearheaded by AAA4 itself, by one of the seven Counties, and by one of the independent living centers. The aspirational goal was to spark discussion about how the impact of these successful programs and initiatives could be further enhanced and/or replicated elsewhere.

4. Select Your MPA Initiatives

“Now that you’ve determined the primary issues and areas of opportunity in your community, narrow down your project’s focus using the MPA’s Five Goals and 23 Strategies.”

- a. Beginning in August 2023, County Workgroups met to select a project of focus for SFY 2024-25. The results were as follows:
 - i. Nevada County: Commit funds to the development of a volunteer-based door-to-door transportation program.
 - ii. Placer County: Explore development of an Adult Day Care program.
 - iii. Sacramento County: Develop screening questions to identify individuals at risk of losing their housing for the purposes of early intervention and diversion.

- iv. Sierra County: Establish a service provider collaborative for local organizations that serve older adults.
 - v. Yolo County: As needed, facilitate coordination of transportation for individuals at the time they are referred to community services.
5. Build Your Action Plan [for implementation]
“Once you’ve determined your project’s focus, it’s important to develop a clear scope of work with goals, objectives, strategies, and evaluation measures.”
- a. This 2024-28 Area Plan contains seven sets of goals: one for each County (except for Yuba & Sutter which are combined), and one for Planning and Service Area 4 (PSA 4) as a region. Within each of these sets, we have adopted the 5 bold goals from the Master Plan for Aging.
6. Evaluating Your Age-Friendly Community Program
- a. Evaluation should be integrated into the annual Area Plan Update process.
7. Stay Connected
- a. Play #7 encourages local communities to share their MPA successes with the Governor’s Office and with the California Department of Aging.

The County of Nevada has led the way by producing and publishing its own Aging and Disabilities Playbook. Placer County has completed a Needs Assessment based on the Master Plan for Aging. Sacramento County along with Yuba-Sutter have received Local Aging & Disability Action Planning (LADAP) grants to develop Local Playbooks; that work is currently (2024) in progress. Yolo County has received a Scan Foundation grant to support similar activities.

In June of 2024, AAA4 will begin work on the next major Request for Proposals (RFP) for services with a start date of July 1, 2025. This is when decisions are made about how much total OAA funding each County will receive and, within each County, which OAA services will be funded at what amounts. Ahead of these County Funding Level decisions, standing precedent calls upon the Agency to utilize ad hoc Workgroups to complete the following tasks for each of the seven Counties:

- Come to an agreement on minimum funding levels for the “core” OAA services (i.e., Congregate Meals, Home-Delivered Meals, Legal Services, Senior Information & Assistance and Transportation).
- If applicable, recommend how remaining OAA dollars should be disbursed, based on Area Plan Priorities and local considerations. Remaining dollars could be used to supplement core services and/or to fund optional OAA services (e.g., Caregiver Respite, Employment, Evidence-Based Health Promotion, Minor Home Modifications, etc.).
- Identify areas where focused resource development is necessary to fund current or future OAA services at levels adequate to meet existing or emerging community needs.

Establishing Priorities

For an Area Agency on Aging (AAA), the business of setting local priorities is both a directive and a prerogative that occurs within the constraints of federal, state and municipal policies and budgets. Ostensibly, the major goals contained in an Area Plan embody the AAA’s priorities. Yet, a look at the associated expenditures might give an observer a far different notion of what the Agency considers most important.

By far, the greatest expenditure of dollars in PSA 4 is for the Elderly Nutrition Program with the primary benefactors being folks who reside in the Sacramento metropolitan area, including the majority of Sacramento County and the cities of West Sacramento (Yolo County) and Roseville/Rocklin/Granite Bay (Placer County). Nutrition in general and Meals on Wheels in particular are fiscal priorities for the federal and state government, and public dollars are allocated based on the size of senior populations. So although its genesis was hardly local, AAA4 certainly embraces Meals on Wheels (home-delivered meals) as the centerpiece of our operation. We channel additional OAA dollars there, and we consider it a “critical” service that should always be available to those in dire circumstances, despite a history of waiting lists in most areas.

AAA4 continues to administer the Yuba-Sutter Meals on Wheels program as well as the “Dine Around Town” restaurant voucher program in place of traditional congregate meal sites. RFP Applicants are now given the option to propose similar approaches, and new meal voucher models are being explored in extreme rural areas. In addition, the Governing Board has established **food security** as a priority issue for older adults in our region. AAA4 will be working both with our Funded Partners and with the wider community to address the growing epidemic of senior hunger.

Due to the alarming explosion of homelessness among older adults, **housing security** has risen to priority status as well. Substantial time and energy has been invested in building relationships with local housing agencies. We have called attention to unique challenges that come with serving an aging clientele and to first-time homelessness for those age 50+. We have worked with these new partner organizations to find more effective ways to address folks in the most dire circumstances while also looking “upstream” to curb underlying causes of homelessness.

Mitigating Factors

Local priorities cannot be set without some fiscal context. To ensure an equitable distribution of funds among the seven counties in PSA 4, we apply the Intrastate Funding Formula (IFF) – the same formula used by the California Department of Aging (CDA) to distribute funds to the AAAs statewide. This “parity” system is based upon Census figures, and it makes special allowances for ethnic, low-income and rural populations. These factors are weighted as follows:

<u>Weight</u>	<u>Factor</u>
1.0	Non-Minority 60+ Population
2.0	Minority 60+ Population
2.0	Low Income 60+ Population
1.5	Geographically Isolated 60+ Population

When a county’s population (especially its minority and low-income population) increases in relation to the others, there is a corresponding increase in service dollars. Parity is recalculated periodically as new population figures become available. AAA4 makes efforts to approximate parity during the multi-year contract cycle as fluctuations occur, but we generally do not reduce grants that have already been awarded. Modest increases in funds often provide some latitude. When more latitude is necessary, larger “corrections” between county funding levels are made during the next major RFP process.

Well before the final funding forecast is known, AAA4 can begin to consider program priorities by essentially “matching” local needs with OAA Service Categories intended to meet those needs. In the end, the central question in each county is: Where will investments of limited resources yield the best results possible for older adults and their caregivers? The Agency’s Grants Review Committee will begin this work in the Summer of 2024, just ahead of the 2025-29 contract cycle.

SECTION 5. NEEDS ASSESSMENT & TARGETING

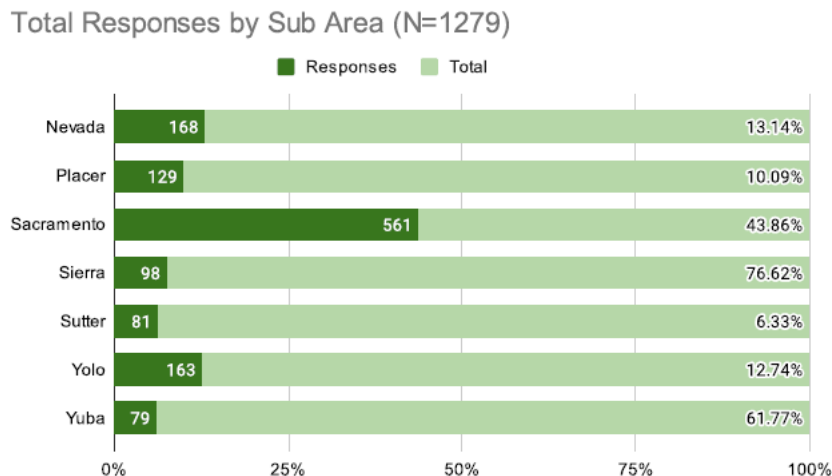

Describe the process and method the AAA used to conduct the needs assessment, the results, and how this information affects the AAA's priorities, goals, and objectives.

Measuring Current Needs

Based upon several different methods, AAA4 has concluded Older Adults are experiencing a number of challenges relative to their ability to maintain independence with safety, health and dignity.

The 2023 Community Assessment Survey of Older Adults (CASOA)

In 2023 the California Department of Aging contracted with a research company (POLCO) to conduct a survey of older adults residing in all 58 counties. Initially, POLCO mailed postcards to a randomly generated list of households with at least one occupant age 55 or older. Individuals could complete the survey online or they could complete a paper version and return it with a postage-paid envelope. In PSA 4, 11,816 households were contacted and 867 surveys were completed. To increase the response rate, the online version of the survey was then opened to the public; this yielded an additional 412 responses for a total sample size of 1,279. Response rates varied widely by County, from 76% in Sierra to just 6% in Sutter.

The reliability of the survey results varies by County as well. In general, a sample size of 380 is needed to obtain a 5% margin of error (95% confidence interval) among a population of 20,000 people or more. In Sacramento County where 561 surveys were obtained, the margin of error is about 4%; however, in Sutter County where only 81 surveys were received, the margin of error is closer to 11%. The population of Sierra County is substantially smaller than that of the other six counties; a strong sample size of 98 translates to a 9.5% margin of error.

The overall sample was weighted to better reflect the true demographic profile of PSA 4. POLCO was unable to provide AAA4 with demographic details by County. This limits our ability to confidently generalize the results at the County level.

The survey instrument itself was a modified version of the national Community Assessment Survey of Older Adults (CASOA) containing five full pages of questions which were traditional needs assessment items organized around Age-Friendly Community themes.

• Ease of travel by car in your community.	81%	82%	90%	80%	78%	61%	88%	56%
• Ease of walking in your community.	61%	43%	61%	64%	73%	47%	75%	36%

With the exception of Yuba County, the first set of figures above reveal a marked difference between respondents' perception of their community as a good or excellent place to live and a good or excellent place to retire. This discrepancy suggests most people feel their community is lacking amenities or characteristics they view as important to retirement. The balance of the survey results point to where respondents think those deficiencies exist.

Overall, just 18% of survey takers rated the "availability of affordable quality housing" as good or excellent, meaning 82% indicated it was not good. The "availability of accessible housing" scored more favorably which probably means respondents believe a significant amount of the accessible housing that does exist is either unaffordable or of poor quality.

In every county, the survey suggests the easiest way to get around is by car, on foot or via public transit, in that order. Only in Yolo County is public transit viewed favorably by most respondents.

● Feeling like you don't fit in or belong.	26%	19%	22%	27%	19%	32%	33%	38%

The availability of “safe and affordable transportation” is a concern for half the survey takers in the Yuba-Sutter area, yet in most other counties the figure is closer to 30%.

At 19%, Placer County is the only place where relatively few respondents expressed difficulty finding employment and building their job skills.

Similarly, “having enough money to meet daily expenses” concerned the fewest folks in Placer and Yolo but the most in Yuba and Sutter. More specifically, paying property taxes was least problematic for survey takers in Yolo County (19%) and most for those in Yuba County (59%).

Despite its rural nature, Nevada County recorded the lowest rate of loneliness and isolation at 29% while Yuba and Sutter tied at 51%. Nevada and Sierra respondents indicated a strong sense of belonging – just 19% cited this as a problem.

Survey takers from Yuba (32%) and Sacramento (30%) were most likely to report experiencing age discrimination in the last 12 months.

In the Health Care category, affordable insurance, getting health care and getting dental care is problematic for many and sometimes most respondents, depending on where they live. In almost every case, affording medications ranked more favorably than the other health issues; nowhere did a majority of people report it is a problem.

Overall, 38% of survey takers perceive the “availability of long-term care options” to be good or excellent. A smaller percentage (22%) feel the same about “daytime care options for older adults.”

Difficulty with daily activities varies widely by County with a low of 10% in Nevada and a high of 45% in Sutter.

● Having enough food to eat.	18%	19%	8%	20%	25%	28%	15%	33%

Most respondents in all seven counties rated their “overall mental health/emotional wellbeing” favorably, ranging from 70% in Yuba to 93% in Sierra. Confusion and forgetfulness appears to be unusually low in Yolo County (17%). Depression seems most pronounced in Sutter County (50%).

Most survey takers also rated their “overall physical health” as good or excellent; Sutter was the lowest (61%) and Nevada was the highest (83%). Nevertheless, a majority of these same respondents reported having health problems in the last 12 months. An unusually high number of Sutter County residents reported difficulty with falls in the home (54%), but this figure is counterbalanced by a corresponding low one in Yolo (18%).

Having enough food to eat was least problematic for respondents in Placer County (8%) and most problematic for those in Yuba County (33%).

People’s perception of feeling safe in their community varies widely; it is highest in Sierra County (93%) and lowest in Sutter County (43%). Overall, 31% of survey respondents reported having had a problem with a fraud or scam in the last 12 months. Physical and emotional abuse was more rare but notable, peaking at 16% in Yuba-Sutter.

When asked “how informed or uninformed do you feel about services and activities available to older adults in your community?,” the results were mixed. The highest percentage of informed respondents reside in Sierra County (73%); the lowest reside in Yuba-Sutter (42-43%). Across the board, the percentages drop (sometimes dramatically) when folks are asked about the “availability of information about resources for older adults.” Information about “financial or legal planning services” is highest in Placer (56%) and Yolo (47%).

In every County, most respondents indicated they don't know what services are available in their community. As for the quality of the services that are provided, those percentages range from 17% good/excellent in Yuba County to 71% in Yolo County.

The caregiving figures above are mixed. It appears somewhere between one-quarter and one-third of the respondents have been involved in caring for another person in the last 12 months.

Social Engagement

Older adults may or may not face a number of challenges. Thinking back over the last 12 months, how much of a problem, if at all, have each of the following been for you?

Percent that rated the characteristic as minor problem, moderate problem or major problem.

- Feeling bored.
- Having interesting social events or activities to attend.

42%	35%	36%	43%	50%	57%	41%	67%

The degree to which survey takers perceive community connection and engagement differs by County. Yolo, Placer and Nevada score high (70-64%) while Sutter and Yuba score low (29-24%). In this realm, “feeling like your voice is heard” was the most frequently cited problem at an average rate of 45%. The least problematic topic was “finding meaningful volunteer work” at an average of 26%, although lower in Nevada County (17%) and notably higher in Yuba County (53%).

In every County, at least one-third and as many as two-thirds of respondents indicated social engagement was a problem for them in the last 12 months.

2024 Town Hall Meetings

When AAA4 drafts a new 4-year Plan, it is customary for Public Meetings to be conducted in each of the seven Counties to allow all interested parties to provide input. From early March to mid-April fifteen (15) such meetings were held. The Dobbins meeting and all four Yolo meetings were hosted by third party agencies, thus those events flowed somewhat differently from the other ten meetings that were arranged by AAA4 and were hosted by local County Supervisors. Summaries of each meeting are shown below.

2024 Town Hall Meeting Summary: Page 1	
<p>NEVADA COUNTY</p> <p><u>Hosted by:</u> Supervisor Swarthout</p> <p><u>Venue:</u> Virtual via Zoom</p>	<ul style="list-style-type: none"> • 28 people joined <ul style="list-style-type: none"> - 7 AAA staff - 1 County Supervisor - Mayor Jan Arbuckle • No feedback forms for this meeting • Roundtable discussion <ul style="list-style-type: none"> - Transportation was a top priority discussed - Respite for caregivers - Providing caregivers with more resources, statistics was provided that 48% of caregivers pass before the person they are caring for - Need for case managers that handle everything for the person they work with.

Call Data from Senior Information & Assistance Programs

AAA4 funds Title III-B Senior Information & Assistance (I&A) in every County except Sierra. In Nevada, Sacramento and Yolo, the funded I&A provider is also the designated 211 provider. Across Planning & Service Area 4 (PSA 4), the most common reason folks are calling Senior I&A programs is for housing-related concerns. The need is most pronounced in Sacramento County, as evidenced in the chart below from 211 Sacramento. In 2023, there were more calls about housing (16,277) than in the next seven highest-ranking categories combined!

Presenting Needs of Senior (60+) Callers January-December 2023

Further analysis of these Housing calls reveals the largest portion of these calls (46%) were from people inquiring about residential housing options (i.e., market-rate housing). The second largest portion (18%) were from folks asking specifically for help with a housing search. The third largest group of calls (15%) were regarding emergency shelters, at-risk/homeless programs or transitional housing for older adults.

Most of the Senior I&A providers in PSA 4 partner with the Volunteer Income Tax Assistance program each Spring to schedule one-on-one appointments. This creates seasonal spikes in call data. In 2023, 211 Sacramento took over 3,000 tax preparation calls.

Wait-Listed Programs

Arguably, the most compelling indicator of unmet need is wait list numbers. In most cases, these are pre-qualified individuals who should be receiving services, but they are not because the service provider lacks sufficient resources to serve them. Although AA4 has never been able to meet the demand for caregiver respite, the number of families requesting it now far exceeds the number of families who actually receive it in any given year.

As of May 10, 2024, the following AAA4-Funded Programs had exceeded their maximum capacity and have either waived a Waiting List or have an active Waiting List:

- AAA4 Dine Around Town: Wait List Waived
- AAA4 Yuba-Sutter Meals on Wheels:
 - Yuba County: 40 people waiting
 - Sutter County: 42 people waiting
- Del Oro Caregiver Resource Center; Respite Care:
 - Placer County: 225 people waiting
 - Sacramento County: 550 people waiting
 - Yolo County: 48 people waiting
- Dignity Health (Yolo County); Transportation: 17 people waiting
- FREED (Yuba-Sutter); Transportation: 11 & 38 people waiting, respectively
- Gold Country Community Services - HDM (W. Nevada County): 2 people waiting
- Meals on Wheels by ACC (Sacramento County): 151 people waiting
- Meals on Wheels Yolo County: 79 people waiting
- PIRS (Placer County); Minor Home Modifications: 10 people waiting
- Seniors First; Transportation: 4 people waiting

The 2022-23 Strengths Assessment

The CDA-funded CASOA satisfied AAA4's obligation to perform a comprehensive survey of all older adults residing in the seven-county service area. This enabled Agency Staff to focus instead on the first ever Strengths Assessment. In March of 2022 the Governing Board and the Advisory Council began hosting guest speakers on existing successful approaches that directly relate to the 23 Strategies in the Master Plan. To keep the project at a manageable scale, topics were restricted to local efforts being spearheaded by AAA4 itself, by one of the seven Counties, or by one of the independent living centers. The guest presentations were meant to spark discussion about how to enhance the effectiveness of these efforts through local leadership and advocacy.

The Board focused on administrative, fiscal and policy solutions. To encourage a fruitful discussion from the start, key County Staff and County Commissions were invited to attend and share their expertise and knowledge. The Advisory Council looked at programmatic solutions, especially around overcoming barriers to service such as: access, awareness, culture, language, resistance to change, stigma and technology. Subject Experts and key Service Providers were invited to enrich these discussions.

The chart on the following pages summarizes the results. Going forward, the Agency seeks to support and leverage these successful programs and initiatives to address unmet needs in each of the seven counties.

Unmet Consumer Needs Information from Local ADRCs

As mentioned previously, there are five separate Aging and Disability Resource Connections (ADRCs) operating within AAA4's seven-county service area. The following excerpts are from the 2025-26 ADRC Annual Plans.

NEVADA COUNTY ADRC:

"In our rural county, public transportation only services a couple very small in-town areas, and the rest of the county suffers from a lack of reliable transport, especially to medical appointments. The managed care transportation contracts have been inconsistent and caused some consumers to miss important appointments and therapies, and has increased the risk of hospitalization and institutionalization."

"One other significant unmet needs is a shortage of in-home caregivers. The ADRC funds One Source Empowering Caregivers (OSEC), a volunteer caregiver respite organization to support enhancing availability of some service for overwhelmed families. OSEC has two Options Counseling trained staff and are getting volunteers trained regularly. The county still has a shortage of IHSS workers available, and it is especially a challenge for individuals who live far from town, in our outlying rural areas."

"Nevada County does not offer the Multipurpose Senior Services Program (MSSP) which could enable eligible older adults to remain in their own homes and prevent or delay institutionalization. Nevada County also does not have access to the Assisted Living Waiver, so low income individuals who need assisted living have no local options for affordable board and care."

"The Housing crisis continues to impact people with disabilities and older adults, and it is the number one request for services from the ADRC."

"Partnership Health Plan is the only MediCal managed care plan available in Nevada County, and they do not offer 2 important Community Supports: Transitions Services and Home Modifications. With the ending of the DOR's Community Living Fund, and the end of the OAA funding for Fix-it Services in Nevada County, financial assistance for home modifications and transitions will be completely unavailable, leaving people stuck in institutions."

PLACER COUNTY ADRC:

"Funding for critical services remains insufficient, limiting the ability of providers to meet the growing community needs. There is a shortage of qualified IHSS caregivers."

SACRAMENTO COUNTY ADRC:

1. Individual and Family Housing
2. Transportation
3. Communication and Information
4. Health Services and Community Supports
5. Social Participation
6. Outdoor Spaces and Buildings
7. Civic Participation and Employment
8. Respect and Social Inclusion"

YOLO COUNTY ADRC:

- “- Shortage of caregivers for IHSS and private pay
- Lack of caregiver training
- Lack of funding for diversion transition services (home modifications) to make home accessible
- Limited housing opportunities for those who are extremely low-income
- Finding affordable and accessible housing for those with physical disabilities
- Access to reliable mental health providers and/or individualized person-centered mental health services.
- Frequent mental health provider turn over”

YUBA & SUTTER COUNTIES ADRC:

“Older adults and individuals with disabilities in the Yuba-Sutter region continue to experience significant unmet needs across multiple areas. Key gaps include:
Transportation: Rural transportation options are extremely limited
Senior Center Access: The region has only one senior center serving one city.
Assisted Living Waiver Access: There is no ALW
Information and Referral Systems: The region does not have a 211 system”

Defining Those with the Greatest Economic Need

Table C (below) illustrates the number and proportion of older adults with greatest economic need in each of the seven counties. At 10.5%, Sutter County has the highest poverty rate among Older Adults in PSA 4; it is followed closely by Sacramento and Yolo (both 10.3%). Placer has the lowest poverty rate at 7.3%.

The poverty rates in Table C include the year 2021. At that time, the federal government defined poverty as having an annual income below \$12,880 for a single person or below \$17,420 for a couple. Presently (2026), the poverty level for a single person is \$15,960; for a couple it is \$21,640.

As is true in the general population, a disproportionate number of ethnic elders are in poverty. The percentage of impoverished Black seniors is more than double the figure for White seniors (16.9% vs. 7.8%). The poverty rates for all other older adults of color in our area are high as well.

The “Hidden Poor”

Since 2008, UCLA’s Center for Health Policy Research has been counting how many Older Californians (age 65+) are not officially considered poor but are not able to make ends meet either. Using a tool called the Elder Economic Security Standard Index (Elder Index or EI), the Center has consistently found that the median cost of living for older people around the State is about twice the Federal Poverty Level.

The simple bar chart to the right shows the median costs for a single renter in 2022 in California and in Sacramento County. The chart below shows what the \$26,568 Elder Index includes in Sacramento, based upon a modest household budget. In PSA 4, the cost of living for single renters is highest in Nevada County (\$29,988) and lowest in Yuba County (\$26,448).

Deeper examination of Elder Index data too complex to fully describe here reveals that the

amount of money needed to meet one’s basic needs varies widely based upon the size of the household (single person vs. couple), the housing type (owner vs. renter), and housing costs (mortgage vs. no mortgage). The last of these, housing costs, are the single largest expense for

everyone except those without a mortgage, and the housing item accounts for all of the cost variation within the “person” and the “couple” categories. Thus when it comes to costs, having housing that is less than 30% of one’s annual earnings is truly (empirically) the key to economic security for older Californians.

Monthly Household Living Expenses

On the other side of the ledger, median Social Security payments in the Sacramento area are \$13,215 for a single renter (about 59% of the median cost of living) and \$20,646 for a renting couple (about 67% of the median cost of living). Without significant streams of revenue from other sources, many older folks will struggle to make ends meet.

Based on its research, UCLA (2016) has estimated that 24.2% of all Californians age 65+ are among the “**hidden poor**” – above the poverty line but below the Elder Index.

Additional information about the Elder Index, including a county dashboard, may be available at: <https://healthpolicy.ucla.edu/programs/health-disparities/elder-health/elder-index-data/Pages/elder-index-data.aspx>

Defining Those with the Greatest Social Need

The number and proportion of older adults with the greatest social need is shown in Table D below. Because the characteristics are not mutually exclusive, a total figure cannot be calculated.

¹ Data taken from the 2023 California Department of Aging Population Projections by PSA

² Data taken from the 2017-21 American Community Survey Special Tabulation on Aging (5-year estimate)

Planning and Service Area 4 (PSA 4) has more Older Adults living in isolated rural areas than any other PSA in California. The majority of these folks live in the foothills and on either side of the Nevada-Sierra summit. About 30% of all older residents in Nevada and Yuba counties live in remote areas. If not for a Reno zip code that spills over the state border, the frontier County of Sierra would be exclusively rural. The remaining residents in this category live on or near agricultural land in the outlying portions of Sacramento County and throughout Yolo County.

The age 60+ population continues to become more ethnically diverse as the last of the Baby Boomers reach the six-decade mark this year (2024). The central valley counties are substantially more diverse than the foothills and mountains. Overall, only 3% of Older Adults do not speak English at all. Many of these folks are immigrants from parts of the world where English is neither the primary nor secondary language spoken, including portions of Southeast Asia, India/Pakistan and the former Soviet Union.

Typically, about one-third of Older Adults self-identify as having one or more disabilities, as defined by the Census Bureau. Table D shows PSA 4 is slightly below that figure. As expected, the pattern across the individual counties mirrors the poverty rate. Nevada, Placer and Sierra counties are below average while the counties in the valley are near or above average. Having a disability is associated with reduced earnings and, therefore, a greater likelihood of living in poverty, especially later in life.

Assessing the Needs of LGBTQ Individuals

The Community Assessment Survey for Older Adults (CASOA) asked respondents about their gender identity and sexual orientation. The sample for PSA 4 includes 16 Lesbians, 41 Gay men, 17 Bisexuals, 3 Transgender individuals, 2 Agender respondents and 11 people who identify with some other sexual orientation for a total of 90 out of 1,279 or 7.0%. Nationally, experts believe about 5% of ALL Americans will self-identify as LGBT in an anonymous survey. We would expect a lower percentage among people age 55+ but a higher percentage among Californians, so our sample seems representative.

Researchers at UCLA (2016) have found Older Adults who self-identify as L, G or B are more likely to be depressed and more likely to report being in poor mental and physical health than heterosexuals in the same age group.

Unfortunately, we do not have the ability to separate our CASOA by gender identity and sexual orientation, so we cannot confirm whether these findings are true in our seven-county service area.

California data shows around 5% of adults 60+ identify as lesbian, gay, bisexual, transgender, and queer (LGBTQ+), a growing demographic facing unique challenges, with recent UCLA Williams Institute and CA Department of Aging reports highlighting disparities in health, income (higher poverty), housing insecurity, and discrimination, necessitating targeted state planning via the Master Plan for Aging and the Agency on Aging Area 4s' Area Plan. Key findings in the research reveal higher rates of anxiety, loneliness, reliance on public assistance, and experiences of discrimination, underscoring the need for better data and services. That said, specific demographic data on LGBTQ+ people aged 60 and over within our service area is not detailed in publicly available reports. Research consistently finds that lesbian, gay, bisexual, transgender, and queer (LGBTQ+) older adults have different life experiences than their heterosexual and cisgender counterparts. LGBTQ+ communities are diverse in race, ethnicity, age, and socioeconomic status, ability, and in other respects. While the research exploring LGBTQ+ adults has expanded throughout the years, there is still much to understand, including how inequality and compounded discrimination impact their quality of life across the lifespan.

Precise census data on the LGBTQ+ population aged 60 and older is not available at the county level for Nevada, Placer, Sacramento, Sierra, Sutter, Yolo, and Yuba counties. The U.S. Census Bureau did not historically collect data on sexual orientation or gender identity in its main surveys, though the Household Pulse Survey began asking these questions in 2021. This lack of data makes it difficult for agencies such as ours to know with certainty where the people live, we just know that they are there.

The Williams Institute at UCLA provides data and demographics visualizations for the LGBTQ population based on various surveys (primarily Gallup). Their data offers overall estimates of the percentage of the adult LGBTQ population for some specific counties (e.g., Nevada County at 5.5%, Sacramento County at 4.3% as a percentage of the general LGB adult population) but does not specifically provide breakdowns for the 60+ age group at the county level.

As stated in the first of its kind LGBTQ study conducted by the California Department of Aging, we know that by 2030, nearly 10 million Californians will be 60 years of age or older. Approximately 5% of these mid-life and older adults identify as lesbian, gay, bisexual, transgender, queer, intersex, asexual, or sexual and/or gender minority (LGBTQIA+), yet we know relatively little about their health and wellbeing. What we do know suggests significant health disparities, disparities that are difficult, if not impossible, to address without more comprehensive, accurate data.

As an Agency that serves the counties of Nevada, Placer, Sacramento, Sierra, Sutter, Yolo and Yuba, we know that these older adults are living in our service area and since we are dedicated to building caring and collaborative communities it is our goal to collect data about them and to use that data to better serve this traditionally underserved community.

Targeting Those with the Greatest Needs

Older Americans Act (OAA) services are available to people regardless of their gender identity, sexual orientation, race, ethnicity, citizenship, religion, political views, appearance, abilities, limitations, education, socio-economic status, or employment status. The OAA requires that special efforts be made to serve eligible individuals with the “*greatest social and economic needs.*” Broadly, this term refers to people whose status or circumstance is likely to present barriers to their long term care. To help ensure consistent interpretation of this concept, AAA4 has established three priority categories as described below. A person may meet multiple criteria across and within these categories at the same time.

1) **Existing Clients:** Funded Partners SHALL evaluate the needs of any clients who had been receiving services under the same service category in the same geographic service area during the period just prior to the start of a new contract cycle. Such existing clients whose needs are equal to or greater than those of new prospective clients should be served first. Thereafter, people do not necessarily retain any priority status solely for being existing clients.

2) **Target Groups:** The Older Californians Act, the California Department of Aging and the AAA4 Area Plan identify people having certain characteristics as “target” populations. The requirements with respect to these populations vary as follows:

- a) Select Funded Partners are required to serve primary target populations at least at a proportionate percentage, based upon their projected numbers within the specific geographic service area. The primary groups are people who are:
 - i. Living at or below the Federal Poverty Level.
 - ii. Ethnic Minorities.
 - iii. Living in a rural area.
- b) Select Funded Partners shall make reasonable efforts to serve secondary target populations. The secondary groups are people who:
 - i. Reside at home and are at risk of institutionalization because of limitations on their ability to function independently.
 - ii. Are patients in hospitals and are at risk of prolonged institutionalization.
 - iii. Are patients in long-term care facilities, but who can return to their homes if community-based services can be provided to them.
 - iv. Have themselves (or persons of any age who are caring for someone with) a diagnosis of Alzheimer’s disease or a related disorder with neurological and organic brain dysfunction.
 - v. Are isolated (culturally, socially or physically).
 - vi. Have language barriers.
 - vii. Have physical or mental disabilities.
- c) All Funded Partners are expected to conduct some form of outreach activity intended to reach tertiary target populations. The tertiary groups are people who:
 - i. Have dementia.
 - ii. Are family caregivers.
 - iii. Are frail.
 - iv. Are neglected or exploited.
 - v. Self-identify as LGBTQ (lesbian, gay, bi-sexual, transgender and questioning/queer).
 - vi. Are unemployed and seeking work.
 - vii. Are Holocaust survivors.

3) **Special Circumstances:** AAA4 recognizes that in addition to the categories above, special circumstances may exist which warrant priority consideration. In extreme cases, such circumstances may include:

- a) An Older Adult or the primary caregiver of an Older Adult or the live-in spouse/partner of an Older Adult has a terminal diagnosis and is actively dying.
- b) An Older Adult is being released from a hospital or from a LTC facility to a home or other non-medical setting.
- c) An Older Adult has no financial assets whatsoever and no means to obtain income/assets.
- d) A court of law has found an Older Adult to be defrauded without gross negligence on his/her own behalf and whose unrecoverable losses have impoverished them.
- e) An Older Adult is being placed in a LTC facility although the placement is not medically necessary and the individual does not pose a danger to themselves or others.
- f) An Older Adult is homeless or near homeless.
- g) An Older Adult has no access to food or water whatsoever.
- h) An Older Adult has no means of transportation whatsoever.

SECTION 6. PRIORITY SERVICES & PUBLIC HEARINGS

2024-2028 Four-Year Planning Cycle

Funding for Access, In-Home Services, and Legal Assistance

The CCR, Article 3, Section 7312, requires the AAA to allocate an “adequate proportion” of federal funds to provide Access, In-Home Services, and Legal Assistance in the PSA. The annual minimum allocation is determined by the AAA through the planning process. The minimum percentages of applicable Title III B funds² listed below have been identified for annual expenditure throughout the four-year planning period. These percentages are based on needs assessment findings, resources available within the PSA, and discussions at public hearings on the Area Plan.

Category of Service and the Percentage of Title III B Funds expended in/or to be expended in FY 2024-25 through FY 2027-2028

Access:

Transportation, Assisted Transportation, Case Management, Information and Assistance, Outreach, Comprehensive Assessment, Health, Mental Health, and Public Information

2024-25 30 % 25-26 30 % **26-27 30 %** 27-28 _____ %

In-Home Services:

Personal Care, Homemaker, Chore, Adult Day / Health Care, Alzheimer’s Day Care Services, Residential Repairs/Modifications

2024-25 4 % 25-26 3 % **26-27 3 %** 27-28 _____ %

Legal Assistance Required Activities:³

Legal Advice, Representation, Assistance to the Ombudsman Program and Involvement in the Private Bar

2024-25 10% 25-26 10 % **26-27 10 %** 27-28 _____ %

Explain how allocations are justified and how they are determined to be sufficient to meet the need for the service within the PSA.

These percentages arise from the Community-Centered process described in Section 4, meaning they are calculated *after* county-level funding decisions have been made, and they are intended to remain constant throughout the 4-year RFP cycle. However, variations can occur over time due to changes in the availability of funding or the discontinuation of service categories. If they are significant enough, these variations will trigger a “mid-stream” adjustment to the percentages so that minimum levels are maintained.

² Minimum percentages of applicable funds are calculated on the annual Title IIIB baseline allocation, minus Title IIIB administration and minus Ombudsman. At least one percent of the final Title IIIB calculation must be allocated for each “Priority Service” category or a waiver must be requested for the Priority Service category(s) that the AAA does not intend to fund.

³ Legal Assistance must include all the following activities: Legal Advice, Representation, Assistance to the Ombudsman Program and Involvement in the Private Bar.

PUBLIC HEARING: At least one public hearing must be held each year of the four-year planning cycle. CCR Title 22, Article 3, Section 7302(a)(10) and Section 7308, Older Americans Act Reauthorization Act of 2020, Section 314(c)(1).

Fiscal Year	Date	Location	Number of Attendees	Presented in languages other than English? ⁴ Yes or No	Was hearing held at a Long-Term Care Facility? ⁵ Yes or No
2024-2025	5/16/2024	Agency on Aging Area 4 1401 El Camino Ave. Sacramento, CA	19	No	No
2025-2026	4/11/2025	Agency on Aging Area 4 1401 El Camino Ave. Sacramento, CA	26	No	No
2026-2027	4/10/2026	Agency on Aging Area 4 1401 El Camino Ave. Sacramento, CA	TBD	No	No
2027-2028					

The following must be discussed at each Public Hearing conducted during the planning cycle:

- Summarize the outreach efforts used in seeking input into the Area Plan from institutionalized, homebound, and/or disabled older individuals.
A notice appeared in the Sacramento Bee, the meeting was featured on the A4AA website and e-mails were sent out to all A4AA-funded service providers. A4AA also welcomes written input.
- Were proposed expenditures for Program Development (PD) or Coordination (C) discussed?
 Yes. Go to question #3
 Not applicable, PD and/or C funds are not used. Go to question #4
- Summarize the comments received concerning proposed expenditures for PD and/or C.
- Attendees were provided the opportunity to testify regarding setting minimum percentages of Title III B program funds to meet the adequate proportion of funding for Priority Services
 Yes. Go to question #5
 No, Explain:
- Summarize the comments received concerning minimum percentages of Title III B funds to meet the adequate proportion of funding for priority services.
- List any other issues discussed or raised at the public hearing.
- Note any changes to the Area Plan that were a result of input by attendees.

4 A translator is not required unless the AAA determines a significant number of attendees require translation services.

5 AAAs are encouraged to include individuals in LTC facilities in the planning process, but hearings are not required to be held in LTC facilities.

SECTION 7. AREA PLAN NARRATIVE GOALS & OBJECTIVES

Aligning the Area Plan Goals with the Master Plan for Aging

This 2024-28 Area Plan contains seven sets of goals: one for each County (except for Yuba & Sutter which are combined), and one for Planning and Service Area 4 (PSA 4) as a region. Within each of these sets, we have adopted the 5 bold goals from the Master Plan for Aging.

GEOGRAPHY	GOAL #1 HOUSING	GOAL #2 HEALTH	GOAL #3 INCLUSION	GOAL #4 CAREGIVING	GOAL #5 AFFORDABILITY
NEVADA	Objectives	Objectives	Objectives	Objectives	Objectives
PLACER	Objectives	Objectives	Objectives	Objectives	Objectives
SACRAMENTO	Objectives	Objectives	Objectives	Objectives	Objectives
SIERRA	Objectives	Objectives	Objectives	Objectives	Objectives
YOLO	Objectives	Objectives	Objectives	Objectives	Objectives
YUBA-SUTTER	Objectives	Objectives	Objectives	Objectives	Objectives
PSA 4	Objectives	Objectives	Objectives	Objectives	Objectives

Nevada, Sacramento and Yuba-Sutter have each developed their own Local Aging & Disability Action Plans which aim to advance goals that are compatible with the Governor’s Master Plan for Aging.

The Nevada Playbook (2021-26) and Implementation Plan were developed by the County Adult Services Department and the Nevada ADRC. Agency on Aging Area 4 (AAA4) is a core partner of the Nevada ADRC along with the FREED Center for Independent Living which is also the fiscal/administrative agent. The County of Nevada and/or FREED are the lead agencies for most of the strategies in the Nevada Implementation Plan. This Area Plan references strategies where AAA4 or a funded partner of AAA4 is the lead agency.

The Sacramento Action Plan (2025-30) was developed by the County Department of Child, Family and Adult Services with input from various community partners, including AAA4. Specific strategies to implement the Action Plan are still in development at this time (September 2025). Four workgroups are developing specific strategies.

The Yuba-Sutter Aging and Disability Action Plan (2025-2030) and Implementation Playbook were developed by the Yuba-Sutter ADRC. AAA4 is a core partner and the fiscal agent for the Yuba-Sutter ADRC. Implementation work is happening in parallel with this Area Plan.

⁶ If not a program specific goal, indicate if the objective is Administration (Admin,) Program Development (PD) or Coordination (C). If a PD objective is not completed in the timeline required and is continuing in the following year, provide an update with additional tasks. For the program specific goals and objectives please identify service category where applicable.

⁷ Use for the Area Plan Updates to indicate if the objective is New, Continued, Revised, Completed, or Deleted.

The Governor's Master Plan for Aging: Five Bold Goals for 2030

GOAL 1: Housing for All Ages and Stages

We will live where we choose as we age in communities that are age-, disability-, and dementia-friendly and climate- and disaster-ready.

TARGET: Millions of New Housing Options to Age Well

GOAL 2: Health Reimagined

We will have access to the services we need to live at home in our communities and to optimize our health and quality of life.

TARGET: Close the Equity Gap In and Increase Life Expectancy

GOAL 3: Inclusion & Equity, Not Isolation

We will have lifelong opportunities for work, volunteering, engagement, and leadership and will be protected from isolation, discrimination, abuse, neglect, and exploitation.

TARGET: Keep Increasing Life Satisfaction as We Age

GOAL 4: Caregiving That Works

We will be prepared for and supported through the rewards and challenges of caring for aging loved ones.

TARGET: One Million High-Quality Caregiving Jobs

GOAL 5: Affording Aging

We will have economic security for as long as we live.

TARGET: Close the Equity Gap In and Increase Elder Economic Sufficiency

GOAL #1: HOUSING FOR ALL AGES AND STAGES

“We will live where we choose as we age in communities that are age-, disability-, and dementia-friendly and climate- and disaster-ready.”

The Master Plan for Aging calls upon local communities to join the State in adopting the following strategies to advance Goal #1:

> More Housing Options as We Age

“California communities are increasingly developing more affordable housing options to meet the needs of all stages of life for all people, regardless of age, race, income, ability, or household size. The production, protection, and preservation of affordable housing, including Accessory Dwelling Units and Residential Care Facilities of all sizes, will support older adults, caregivers, and response families.”

> Transportation Beyond Cars

“Age- and disability-friendly transportation networks can be strengthened through improved community walkability and expansion of bus and transit stops, transit rider education and subsidies, seamless paratransit across transit district lines, and driver safety education.”

> Outdoor & Community Spaces

“All Californians can benefit from more convenient park access within a ten-minute walk or less, co-location of parks with community centers offering programming for all ages, and incorporation of smart park technologies.”

> Emergency Preparedness & Response

“Preparation and planning with and for older adults and people with disabilities is especially important to prioritize, given the higher risk of death or harm due to emergencies and disasters. Improving technologies and communications that address the access and functional needs of residents during disasters can also improve preparedness and response to these growing populations.”

> Climate-Friendly Aging

“Age-friendly communities are naturally in alignment with environmentally friendly initiatives, including low-emissions transportation systems; walkable and low vehicle-miles-traveled (VMT) neighborhoods and cities; and in-home energy-saving modifications. Community planning can factor in climate impact and safety, including disaster resiliency, in new, updated, and rebuilt housing and transportation.”

GOAL #2: HEALTH REIMAGINED

“We will have access to the services we need to live at home in our communities and to optimize our health and quality of life.”

The Master Plan for Aging calls upon local communities to join the State in adopting the following strategies to advance Goal #2:

- > Bridging Health Care & Home/Community
“Through innovative partnerships with the federal government, health plans, health systems, and community-based organizations, California can innovate and test new models of health care delivery that maximize access to services – and, as a result, avoid unnecessary institutionalization.”
- > Health Coverage and Care for All
“California can continue to lead the nation in pursuing strategies to increase access across the spectrum of health care services, including modernizing Medicare counseling services and developing new generic drug manufacturing partnerships, to improve access and care options.”
- > Lifelong Healthy Aging
“By fostering healthy environments beginning at birth, expanding access to prevention programs, and developing culturally competent public health educational tools and services, California communities can reduce some of the greatest and most inequitable health disparities.”
- > Geriatric Medicine
“California is home to some of the foremost geriatric experts in the country. Expanding Geriatric Emergency Department certification and increasing geriatric training opportunities will ensure our health care system is staffed by teams including geriatricians and gerontologists, as well as nurses and social workers with geriatric training.”
- > Dementia in Focus
“California can lead the nation in both preventing cognitive impairment and improving the lives of Californians living with dementia through comprehensive and coordinated strategies on research, brain health awareness, public information portals and hotlines, standards of care for dementia, and dementia-friendly communities, among other forward-leaning recommendations from the Governor’s Task Force on Alzheimer’s.”
- > Nursing Home Quality
“California can emerge from the COVID-19 pandemic with renewed commitment to innovation in quality care, including such areas as value-based payment and architectural redesign to smaller, more home-like environments.”

GOAL #3: INCLUSION AND EQUITY, NOT ISOLATION

“We will have lifelong opportunities for work, volunteering, engagement, and leadership and will be protected from isolation, discrimination, abuse, neglect, and exploitation.”

The Master Plan for Aging calls upon local communities to join the State in adopting the following strategies to advance Goal #3:

> Inclusion & Equity in Aging

“As the most racially, ethnically, and linguistically diverse state in the nation, California can lead in combatting ageism, ableism, racism, xenophobia, sexism, homophobia, and all prejudices and in expanding opportunities for all older adults and people with disabilities to be economically, civically, and socially engaged, without experiencing discrimination or bias. California’s aging and disability leaders, providers, and partners are committed to becoming increasingly culturally responsive through strategies including trainings, data collection, public campaigns (including with partners in California’s entertainment industry), and targeted equity and inclusion goals in workforce, service planning, and service delivery.”

> Closing the Digital Divide

“In August 2020, Governor Gavin Newsom signed Executive Order N-73-20 to deploy affordable and reliable broadband throughout the state. Closing the digital divide by increasing access to the internet and digital devices will improve the ability of older adults and people with disabilities to connect to family and friends, health care providers, and to access additional support during the COVID-19 pandemic and beyond.”

> Opportunities to Work

“Scaling flexible work and education models, including virtual options, and preventing age discrimination in the workplace, can increase the inclusion of older adults and people with disabilities and harness all of California’s talent, professionalism, knowledge, and expertise.”

> Opportunities to Volunteer & Engage Across Generations

“Volunteer programs for community priorities can intentionally and effectively recruit, support, and connect adults of all ages through volunteer centers, schools, community sites, libraries, and more.”

> Protection from Abuse, Neglect & Exploitation

“Through new statewide coordinated efforts focused on prevention and equity, California can strengthen prevention and responses to elder abuse, neglect, exploitation, and fraud with person-centered, data-driven, and culturally competent approaches.”

GOAL #4: CAREGIVING THAT WORKS

“We will be prepared for and supported through the rewards and challenges of caring for aging loved ones.”

The Master Plan for Aging calls upon local communities to join the State in adopting the following strategies to advance Goal #4:

> Family and Friends Caregiving Support

“Family caregivers need supports – such as paid family leave, multilingual training resources, virtual care options, and respite – so that the role remains rewarding and caregivers can maintain health, well-being, and income while caring for a loved one. Given that lower-income women, particularly women of color, disproportionately provide family caregiving, resources and support should be tailored and prioritized accordingly.”

> Good Caregiving Jobs Creation

“The caregiving workforce can be grown through caregiver training and professional development opportunities, along with livable wages, job placement support, and improved job quality. Higher wages will help paid caregivers work toward financial security, alleviate economic disparities, and better reflect the true value of their work.”

> Virtual Care Expansion

“New technologies, many pioneered in California, are paving the way for innovations in personal devices, smart home and community design, telehealth and more, and have the potential to help support caregiving and aging well across the state, nation, and globe.”

GOAL #5: AFFORDING AGING

“We will have economic security for as long as we live.”

The Master Plan for Aging calls upon local communities to join the State in adopting the following strategies to advance Goal #5:

> End Homelessness for Older Adults

“California will continue to invest in innovative solutions to prevent older adult homelessness, reduce barriers to accessing housing programs and services, and promote the transition of those experiencing homelessness to affordable and accessible housing models, with supportive services.”

> Income Security as We Age

“Challenges require multiple approaches: For income, California will pursue partnerships to assess and strengthen all three sources – individual savings, employer-based retirement, and Social Security – and to expand employment opportunities and economic security at all ages. For expenses, reducing housing and health costs (as discussed in goal one and two) will increase elder economic security.”

> Protection from Poverty and Hunger

“The federal/State safety net for older adults and people with disabilities, Supplemental Security Income/State Supplementary Payment (SSI/SSP), has not kept up with poverty levels. A recent state budget agreement proposes to begin to address the SSP in January 2022. The hunger and nutritional needs of older Californians need greater assessment and coordination to provide affordable and culturally appropriate foods through CalFresh (SNAP), food banks, meal delivery at home, congregate meals at day centers and long-term care facilities, farmers markets, and medically tailored meals, among others.”

AAA4's 2024 – 2028 Strategic Area Plan: NEVADA COUNTY, California

NEVADA COUNTY, California

GOAL #1: HOUSING FOR ALL AGES AND STAGES

“We will live where we choose as we age in communities that are age-, disability-, and dementia-friendly and climate- and disaster-ready.”

1.1 NEVADA: Provide Services that Advance Goal #1

AAA4 will use public and private funds to provide long-term services and supports (LTSS) to older adults, people with disabilities and their family caregivers.

(A) Older Americans Act (OAA) Programs:	7/25 to 6/26 7/26 to 6/27	S
<p>1) Information & Assistance – Title III-B Supportive Service 211 Nevada County, a program of Connecting Point https://211connectingpoint.org/ or 2-1-1 or (833) 342-5211 Provides individuals with information on services available within their communities.</p> <p>2) Legal Assistance – Title III-B Supportive Service Legal Services of Northern California (LSNC) https://lsnc.net/ or (530) 823-7560 Legal help by an attorney or person acting under the supervision of an attorney with accessing housing benefits and with landlord/tenant disputes including evictions.</p> <p>3) Residential Repairs/Modifications – Title III-B Supportive Service Fix It, a program of FREED Center for Independent Living</p> <p>4) Transportation – Title III-B Supportive Service Hospitality House https://hshelter.org/transportation/ or (530) 271-7144 Offer rides to and from local medical offices, shopping centers, and senior centers, with priority given to unhoused and at-risk older adults.</p> <p>Staff Lead: Regional Services Specialists (Clayton & Rebecca) Projected units of service for SFY 26-27 are listed in the Service Unit Plan (Section 8). III-B and III-C services will be open for competitive bid for SFY 30-31 and beyond. Contact AAA4 for details.</p>		
(B) Other Programs:	7/25 to 6/26 7/26 to 6/27	S
<p>1) Veterans-Directed Care Agency on Aging Area 4 (AAA4) https://agencyonaging4.org/ or (800) 211-4545 <i>Note: Individuals must first be referred by a physician at a VA Medical Center.</i> With the help of an options counselor, veterans at risk of institutionalization manage their own flexible budgets, decide what mix of goods and services best meet their needs, and hire and supervise their own care workers, thus allowing them to continue living at home.</p> <p>Staff Lead: VDC Program Manager (Liz)</p>		

1.2 NEVADA: Develop New Programs to Address Unmet Needs

Where it is warranted and when sufficient resources exist, AAA4 will develop new programs to address unmet needs among older adults, people with disabilities and their family caregivers.

(A) Start-up Project	7/25 to 6/26	PD
<p>Support Nevada County’s Local Playbook (Strategy 5.3) by: Committing resources to the development of a new volunteer-based transportation program.</p> <ul style="list-style-type: none"> • Year 1 (2025-26): Develop a sustainable business plan in partnership with the County of Nevada and the Nevada ADRC. Contract with Connecting Point to complete a feasibility study by June 30, 2026 which assesses whether or not a volunteer-based transportation program could reasonably be expected to have long-term viability in Western Nevada County. <u>Update:</u> As of March 2026, Connecting Point has investigated successful service models and resources elsewhere in the State and nation, and they have researched the efficacy of existing local transportation programs in meeting the particular needs of Transportation Disadvantaged older adults and adults with disabilities. Soon, this work will culminate in a final written report. • Year 2 (2026-27): Launch the pilot project (if determined feasible) • Year 3 (2027-28): Evaluate the project, make improvements and prepare for transition to a standalone program or an ongoing Older Americans Act Program <p>Staff Lead: Regional Services Specialists –Rebecca</p>		

1.3 NEVADA: Coordinate with Community Partners on Goal #1

AAA4 will coordinate with advisory bodies, lead organizations and stakeholder groups that serve older adults, people with disabilities and their family caregivers. For the primary purpose of avoiding duplication of effort, validate non-OAA funded groups that represent the collective interests of people served by PSA 4 (or subgroups thereof) by publicly acknowledging and/or supporting their efforts. Seek to actively collaborate with such groups if doing so advances the goals of AAA4. Collaborations could include dedicated advocacy, promotion and training that yields tangible results for both parties.

5.4 PLACER: Recommendations regarding the Strategies under Goal #5

The Master Plan for Aging includes many elements that are beyond the scope of AAA4 and its network of social service providers. Therefore, we offer the following recommendations to local individuals and organizations who's positions of authority allow them to take further action.

(A) "End Homelessness for Older Adults"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(B) "Income Security as We Age"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(C) "Protection from Poverty & Hunger"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(D) OTHER (if applicable)	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		

AAA4's 2024 – 2028 Strategic Area Plan: SACRAMENTO COUNTY, California

The local access point to a “No Wrong Door” system where people of all incomes and ages can turn for the full range of long-term support options and smooth access to public programs and benefits.

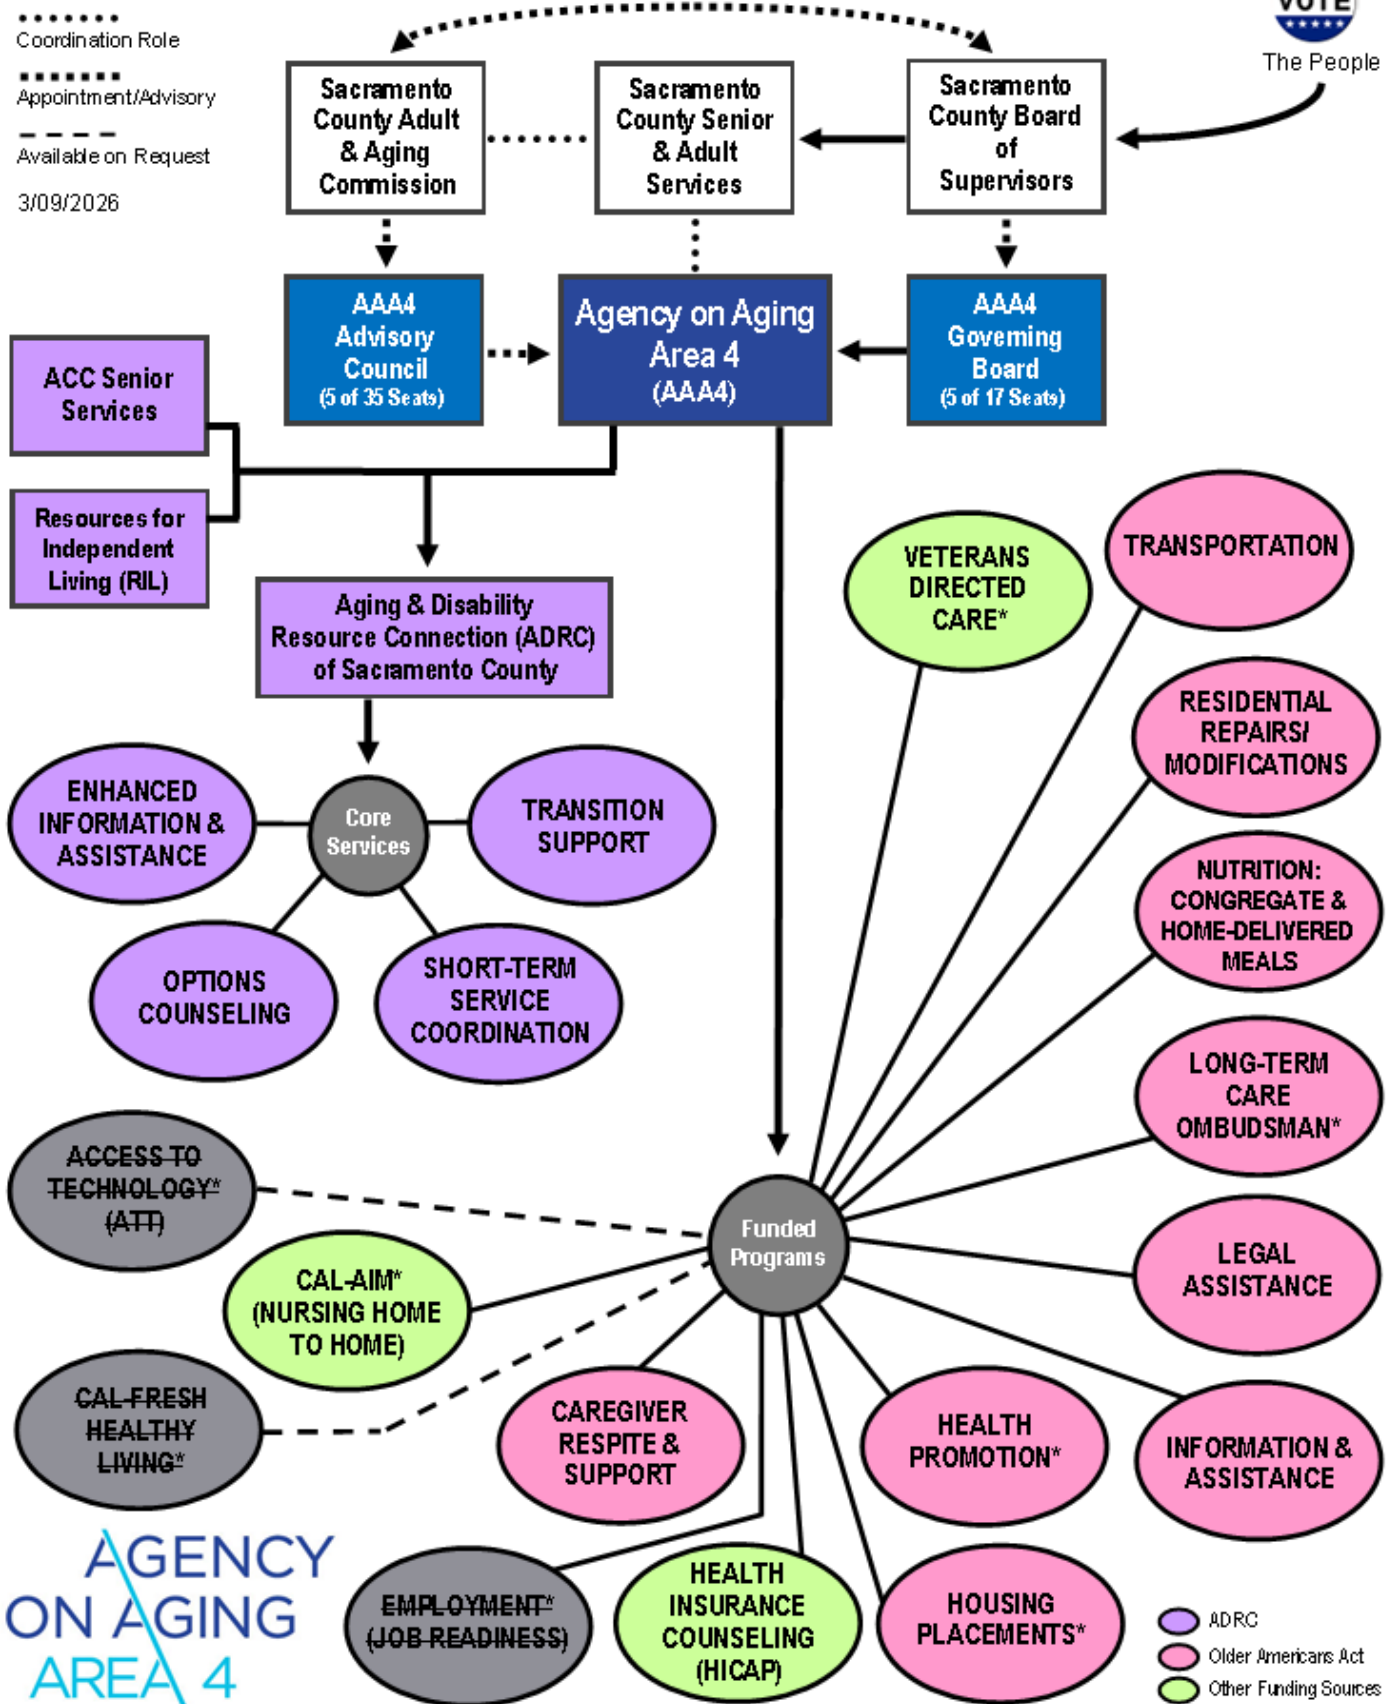

ADRC of Sacramento County	7/25 to 6/26	ADRC
<p>The ADRC of Sacramento County will continue to lead by bringing together diverse community partners to improve service delivery for older adults and people with disabilities, and to promote ease of access to resources available.</p> <ul style="list-style-type: none"> • Enhanced Information & Assistance – ADRC Core Service Provides comprehensive information to people of any age, disability type and income level/source. Includes a warm hand off and follow-up to ensure quality referrals. • Person Centered Options Counseling – ADRC Core Service Personal interview to discover the consumers’ strengths, values, and preferences; decision support including fact finding and the weighing of pros and cons resulting in facilitated decision making; personalized action steps detailing consumers goals; and, follow-up to evaluate action plan success or the need for changes/plan adjustments. • Short-Term Service Coordination – ADRC Core Service Personalized service coordination (usually 90 days or less) for the purpose of stabilizing a situation for individuals whose health, safety and welfare are at risk; and assistance to prevent unnecessary admittance to emergency department or institutional placement. • Transition Support – ADRC Core Service Support a person with information, decision support and coordination of multiple services in order to successfully move from a health care facility back to a community home. Includes both hospital/acute care to home, as well as nursing facility to home. <p>Additional goals for SFY 2025-26 include:</p> <ul style="list-style-type: none"> ❖ Increasing engagement from community partners and the public to raise awareness of the ADRC and its role as a No Wrong Door provider in Sacramento County. ❖ Increasing the knowledge of potential funding options for ADRC core services including Medi-Cal reimbursement. ❖ Establishing connections with elected officials to investigate funding support and raise awareness of the Sacramento ADRC with government entities. <p>Agency on Aging Area 4 (AAA4) https://adrc4.org/sacramento-county/ or (800) 211-4545</p>

AAA4's 2024 – 2028 Strategic Area Plan: SIERRA COUNTY, California

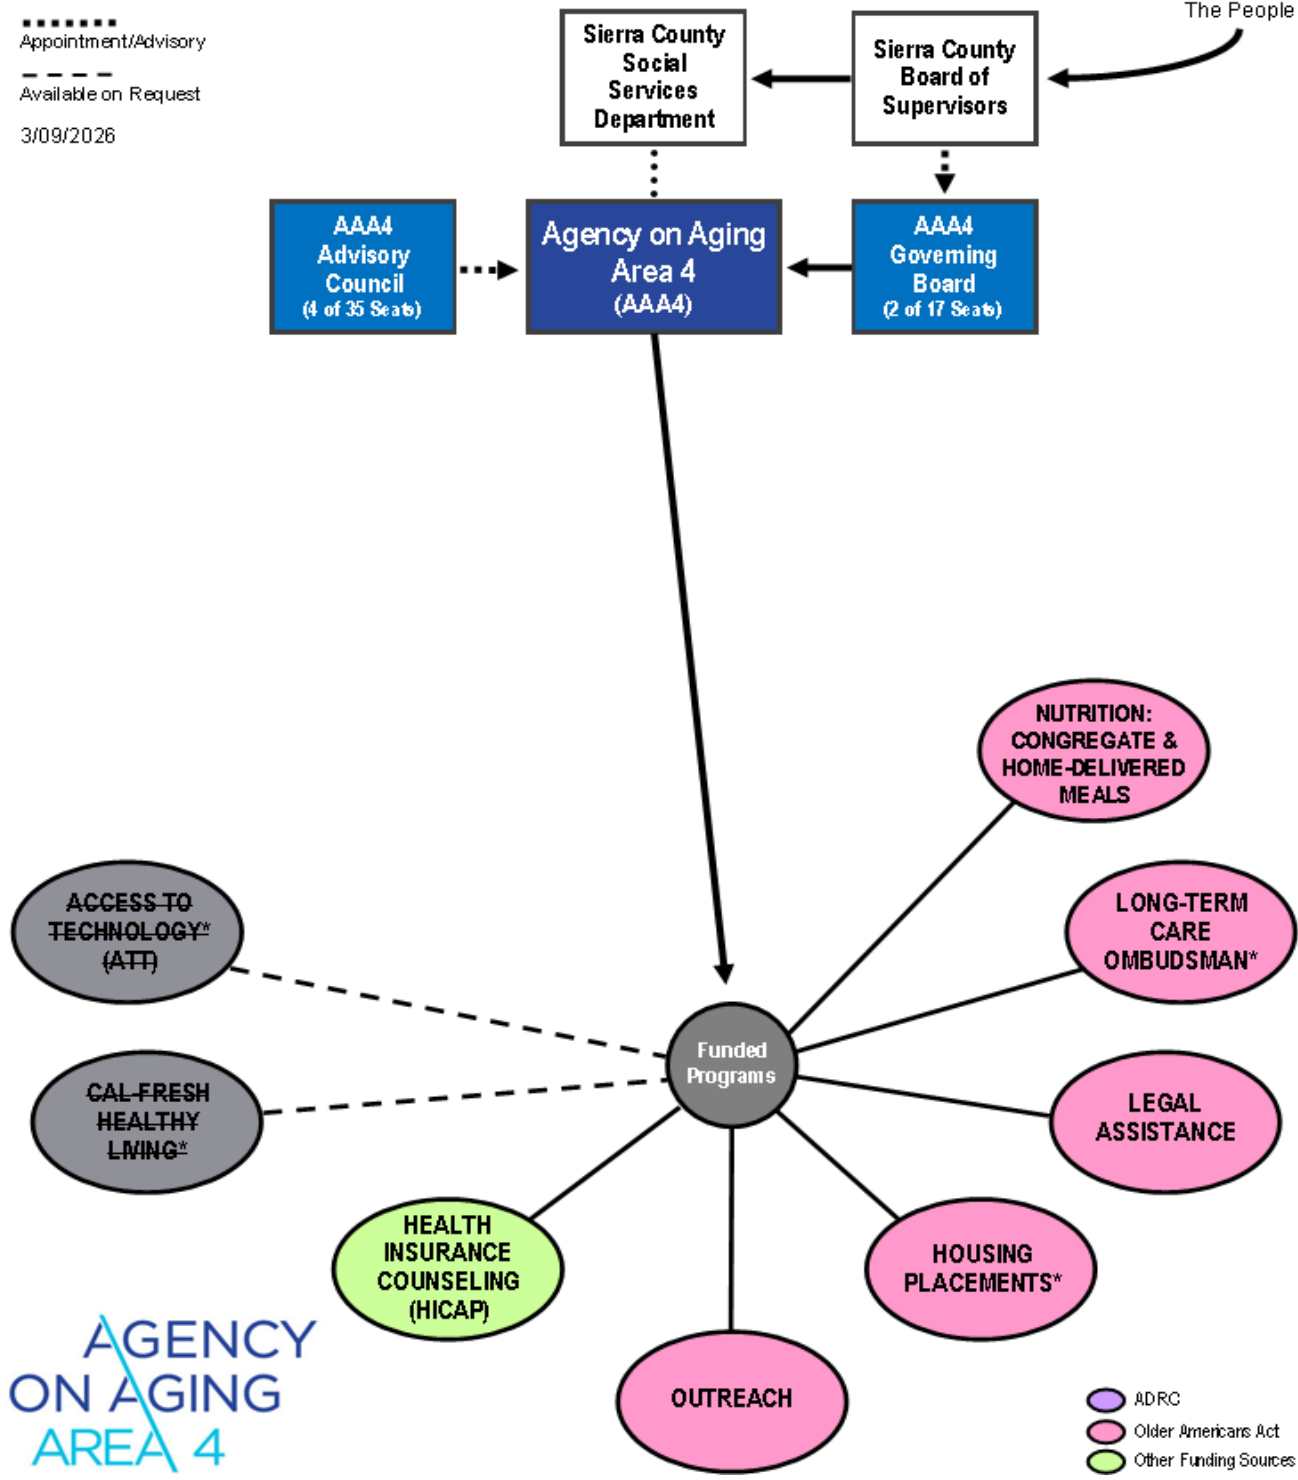

Aging Services Network: Sierra County

*AAA4 Direct Service

 Coordination Role

 Appointment/Advisory
 - - - - -
 Available on Request
 3/09/2026

NOTE: Sierra County is a Frontier community with a total senior population of 1,530 people. In the unlikely event that a resident of Sierra County urgently needs to speak to Senior Information & Assistance on a weekend or after hours, they are welcome to call the neighboring program in Nevada County. This is so unusual that there is no scope of service for this purpose

SIERRA COUNTY, California

3.4 PSA 4: Recommendations regarding the Strategies under Goal #3

The Master Plan for Aging includes many elements that are beyond the scope of AAA4 and its network of social service providers. Therefore, we offer the following recommendations to local individuals and organizations who's positions of authority allow them to take further action.

(A) "Inclusion & Equity in Aging"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(B) "Closing the Digital Divide"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(C) "Opportunities to Work"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(D) "Opportunities to Volunteer"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(E) "Protection from Abuse, Neglect & Exploitation"	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		
(F) OTHER (if applicable)	7/25 to 6/26 7/26 to 6/27	R
<i>To be determined.</i>		

PLANNING & SERVICE AREA 4 (PSA 4)

GOAL #4: CAREGIVING THAT WORKS <i>“We will be prepared for and supported through the rewards and challenges of caring for aging loved ones.”</i>		
4.1 PSA 4: Provide Services that Advance Goal #4 AAA4 will use public and private funds to provide long-term services and supports (LTSS) to older adults, people with disabilities and their family caregivers.		
(A) Older Americans Act (OAA) Programs:	7/25 to 6/26 7/26 to 6/27	S
1) Caregiver Counseling – Title III-E Service Agency on Aging Area 4 (AAA4) https://www.agencyonaging4.org/connecting-to-resources or (800) 211-4545 AAA4 Staff are trained in the evidence-based Benjamin Rose institute Care Consultation (BRICC) program. It is a telephone-based, personalized care-coaching program for individuals with chronic health conditions and their family or friend caregivers, especially for those living in rural areas. Available in Nevada, Placer, Sacramento, Sierra, Sutter, Yolo and Yuba counties. Staff Lead: BRICC Program Manager – German Projected units of service for SFY 26-27 are listed in the Service Unit Plan (Section 8). III-E services will be open for competitive bid for SFY 27-28 and beyond. Contact AAA4 for details.		
(B) Other Programs:	7/25 to 6/26 7/26 to 6/27	S

4.2 PSA 4: Develop New Programs to Address Unmet Needs Where it is warranted and when sufficient resources exist, AAA4 will develop new programs to address unmet needs among older adults, people with disabilities and their family caregivers.		
(A) Start-up Project	7/25 to 6/26 7/26 to 6/27	PD
<i>To be determined.</i>		

4.3 PSA 4: Coordinate with Community Partners on Goal #4

AAA4 will coordinate with advisory bodies, lead organizations and stakeholder groups that serve older adults, people with disabilities and their family caregivers. For the primary purpose of avoiding duplication of effort, validate non-OAA funded groups that represent the collective interests of people served by PSA 4 (or subgroups thereof) by publicly acknowledging and/or supporting their efforts. Seek to actively collaborate with such groups if doing so advances the goals of AAA4. Collaborations could include dedicated advocacy, promotion and training that yields tangible results for both parties.

TITLE IIIB and TITLE VII: LONG-TERM CARE (LTC) OMBUDSMAN PROGRAM OUTCOMES

2024-2028 Four-Year Planning Cycle

As mandated by the Older Americans Act Reauthorization Act of 2020, the mission of the LTC Ombudsman Program is to seek resolution of problems and advocate for the rights of residents of LTC facilities with the goal of ensuring their dignity, quality of life, and quality of care.

Each year during the four-year cycle, analysts from the Office of the State Long-Term Care Ombudsman (OSLTCO) will forward baseline numbers to the AAA from the prior fiscal year National Ombudsman Reporting System (NORS) data as entered into the Statewide Ombudsman Program database by the local LTC Ombudsman Program and reported by the OSTLCO in the State Annual Report to the Administration on Aging (AoA).

The AAA will establish targets each year in consultation with the local LTC Ombudsman Program Coordinator. Use the yearly baseline data as the benchmark for determining yearly targets. Refer to your local LTC Ombudsman Program’s last three years of AoA data for historical trends. Targets should be reasonable and attainable based on current program resources.

Complete all Measures and Targets for Outcomes 1-3.

Outcome 1.

The problems and concerns of long-term care residents are solved through complaint resolution and other services of the Ombudsman Program. Older Americans Act Reauthorization Act of 2020, Section 712(a)(3), (5)]

Measures and Targets:

A. Complaint Resolution Rate (NORS Element CD-08) (Complaint Disposition). The average California complaint resolution rate for FY 2022-2023 was 52%.

Fiscal Year Baseline Resolution Rate	# of partially resolved or fully resolved complaints	Divided by the total number of Complaints	= Baseline Resolution Rate	Fiscal Year Target Resolution Rate
2022-2023	2,812	2,881	98%	<u>98</u> % 2024-2025
2023-2024	2,320	2,399	97%	<u>97</u> % 2025-2026

G. Systems Advocacy (NORS Elements S-07, S-07.1)

One or more new systems advocacy efforts must be provided for each fiscal year Area Plan Update. In the relevant box below for the current Area Plan year, in narrative format, please provide at least one new priority systems advocacy effort the local LTC Ombudsman Program will engage in during the fiscal year. The systems advocacy effort may be a multi-year initiative, but for each year, describe the results of the efforts made during the previous year and what specific new steps the local LTC Ombudsman program will be taking during the upcoming year. Progress and goals must be separately entered each year of the four-year cycle in the appropriate box below.

Systems Advocacy can include efforts to improve conditions in one LTC facility or can be county-wide, state-wide, or even national in scope. (Examples: Work with LTC facilities to improve pain relief or increase access to oral health care, work with law enforcement entities to improve response and investigation of abuse complaints, collaboration with other agencies to improve LTC residents’ quality of care and quality of life, participation in disaster preparedness planning, participation in legislative advocacy efforts related to LTC issues, etc.) Be specific about the actions planned by the local LTC Ombudsman Program.

Please provide information for the Table below:

FY 2024-2025

FY 2024-2025 Systems Advocacy Effort(s): (Provide one or more new systems advocacy efforts)

Fiscal Year 2024-25: During the pandemic volunteer numbers dropped significantly in California and across the nation resulting in lower facility visitations and presence in LTC facilities. Volunteers are crucial in ensuring visits to LTC facilities remain high. To address this systemic concern, the PSA-4 Ombudsman Program is striving for more aggressive volunteer recruitment to grow the program, reduce operational costs, and support field ombudsmen. PSA-4 wants to ensure an improved process of attracting and screening qualified, enthusiastic, dedicated, and committed candidates for volunteer work. PSA-4 has partnered with the Mon Ami program to effectively screen candidates. PSA-4 plans an ambitious increase from 1 to 5 volunteers (400% increase) over the next year and eventually have one volunteer for each of the seven (7) field ombudsmen to assist with general facility visits in RCFEs.

FY 2025-2026

Outcome of FY 2024-2025 Efforts:

PSA-4 increased volunteer recruitment, training, and hiring by 600% in FY 24-25. PSA-4 accomplished this by establishing a new onboarding process with ensuring volunteers receive the proper training, orientation, and additional fieldwork. PSA-4 used Mon Ami volunteer management software, social media, and an online platform (Mon Ami) to streamline recruitment efforts and communications. PSA-4 held a special volunteer recognition and appreciation event on 30 April 2024 to specifically reward volunteers for their contributions which included a special letter from the State Ombudsman, Blanca Castro along with OMB pins and certificates. PSA-4 has also collaborated with DOVIA, a local volunteer organization, to help reach a wider audience of volunteers and to learn more about recruiting and retaining volunteers. PSA-4 also hosted several events this past year to engage potential volunteers and showcase the Ombudsman Program's impact on advocacy for long-term care residents and their families.

FY 2025-2026 Systems Advocacy Effort(s): (Provide one or more new systems advocacy efforts)

On May 7, 2025, the PSA-4 Ombudsman Program will participate in Legislative Advocacy Day at the Sacramento Capitol. This event aims to enhance the visibility of the Ombudsman Program by organizing meetings with key senators and assembly members. Our goal is to foster new or continued heightened interest in aging programs, addressing the needs, services, and advocacy for long-term care residents.

We plan to promote the Ombudsman Program through collective systemic advocacy activities and building critical rapport with Capitol legislators and their staff. A targeted list of concerns has been developed, emphasizing how the Ombudsman Program can assist legislators with their constituents' aging issues. Continued contact with senators and assembly members will continue throughout the year to keep them apprised of ongoing efforts to improve the quality of long-term care residents.

FY 2026-2027

Outcome of FY 2025-2026 Efforts:

The Legislative Advocacy Day was a meaningful experience and an opportunity to stand alongside other PSA managers who share legislators from nearby programs. However, at the same time, PSA-4's strongest impact continues to come from the more focused, relationship-driven advocacy we do throughout the year. Meeting with legislators individually in their home offices, participating in local legislative events, providing testimony at targeted hearings, writing letters, and engaging in ongoing one-on-one conversations consistently allow us to communicate our priorities in a clearer, more personal, and far less hectic environment. These approaches have helped us build deeper connections with our representatives and ensure that the issues affecting older adults in our region are understood and acted upon. We value the statewide events, but our most effective advocacy remains rooted in these direct, local, and sustained efforts.

FY 2026-2027 Systems Advocacy Effort(s): (Provide one or more new systems advocacy efforts)

California's Ombudsman Program plays a critical role in safeguarding resident rights and confronting systemic issues that undermine quality of care. PSA-4's recent reports underscore persistent challenges, including inadequate staffing, delayed call-light response, preventable neglect, and ongoing abuse concerns.

In response, this year's system advocacy priority is to significantly increase ombudsman presence in skilled nursing facilities. Strengthening on-site visibility is intended to address the drivers and consequences of low staffing, reinforce resident protections, and reduce the likelihood of abuse events such as the recent Rancho Seco SNF assault. One-Time-Only funding will be used both to expand immediate coverage and to build long-term program capacity. Key initiatives include improving SOC-341 compliance, enhancing elder abuse reporting practices, deepening collaboration with CDPH surveyors, and equipping facility administrators with additional training and resources.

FY 2027-2028 Systems Advocacy Effort(s): (Provide one or more new systems advocacy efforts)

Outcome 2. Residents have regular access to an Ombudsman. [(Older Americans Act Reauthorization Act of 2020), Section 712(a)(3)(D), (5)(B)(ii)]

Measures and Targets:

A. Routine Access: Nursing Facilities (NORS Element S-58) Percentage of nursing facilities within the PSA that were visited by an Ombudsman representative at least once each quarter not in response to a complaint. The percentage is determined by dividing the number of nursing facilities in the PSA that were visited at least once each quarter not in response to a complaint by the total number of nursing facilities in the PSA. NOTE: This is not a count of visits but a count of facilities. In determining the number of facilities visited for this measure, no nursing facility can be counted more than once.

<p>1. FY 2022-2023 Baseline: Number of Nursing Facilities visited at least once a quarter not in response to a complaint 62 divided by the total number of Nursing Facilities 64 = Baseline 97% FY 2024-2025 Target: 97%</p>
<p>2. FY 2023-2024 Baseline: Number of Nursing Facilities visited at least once a quarter not in response to a complaint 65 divided by the total number of Nursing Facilities 65 = Baseline 100% FY 2025-2026 Target: 100%</p>
<p>3. FY 2024-2025 Baseline: Number of Nursing Facilities visited at least once a quarter not in response to a complaint 64 divided by the total number of Nursing Facilities 63 = Baseline 102% FY 2026-2027 Target: 100%</p>
<p>4. FY 2025-2026 Baseline: Number of Nursing Facilities visited at least once a quarter not in response to a complaint _____ divided by the total number of Nursing Facilities _____ = Baseline _____ % FY 2027-2028 Target: _____</p>
<p>Program Goals and Objective Numbers: 2.1 PSA 4 (A) 2.</p>

B. Routine access: Residential Care Communities (NORS Element S-61) Percentage of RCFEs within the PSA that were visited by an Ombudsman representative at least once each quarter during the fiscal year not in response to a complaint. The percentage is determined by dividing the number of RCFEs in the PSA that were visited at least once each quarter not in response to a complaint by the total number of RCFEs in the PSA. NOTE: This is not a count of visits but a count of facilities. In determining the number of facilities visited for this measure, no RCFE can be counted more than once.

<p>1. FY 2022-2023 Baseline: Number of RCFEs visited at least once a quarter not in response to a complaint 626 divided by the total number of RCFEs 837 = Baseline 75%</p> <p>FY 2024-2025 Target: 75%</p>
<p>2. FY 2023-2024 Baseline: Number of RCFEs visited at least once a quarter not in response to a complaint 323 divided by the total number of RCFEs 870 = Baseline 37%</p> <p>FY 2025-2026 Target: 70%</p>
<p>3. FY 2024-2025 Baseline: Number of RCFEs visited at least once a quarter not in response to a complaint 64 divided by the total number of RCFEs 920 = Baseline 66%</p> <p>FY 2026-2027 Target: 70%</p>
<p>4. FY 2025-2026 Baseline: Number of RCFEs visited at least once a quarter not in response to a complaint _____ divided by the total number of RCFEs _____ = Baseline _____ %</p> <p>FY 2027-2028 Target: _____</p>
<p>Program Goals and Objective Numbers: 2.1 PSA 4 (A) 2.</p>

C. Number of Full-Time Equivalent (FTE) Staff (NORS Element S-23) This number may only include staff time legitimately charged to the LTC Ombudsman Program. Time spent working for or in other programs may not be included in this number. For example, in a local LTC Ombudsman Program that considers full-time employment to be 40 hour per week, the FTE for a staff member who works in the Ombudsman Program 20 hours a week should be 0.5, even if the staff member works an additional 20 hours in another program.

<p>1. FY 2022-2023 Baseline: 9.33 FTEs FY 2024-2025 Target: 9.33 FTEs</p>
<p>2. FY 2023-2024 Baseline: 10.18 FTEs FY 2025-2026 Target: 10.18 FTEs</p>
<p>3. FY 2024-2025 Baseline: <u>10.18</u> FTEs FY 2026-2027 Target: 10.18 FTEs</p>
<p>4. FY 2025-2026 Baseline: _____ FTEs FY 2027-2028 Target: _____ FTEs</p>
<p>Program Goals and Objective Numbers: 2.1 PSA 4 (A) 2.</p>

D. Number of Certified LTC Ombudsman Volunteers (NORS Element S-24)

1. FY 2022-2023 Baseline: Number of certified LTC Ombudsman volunteers = <u>1</u> FY 2024-2025 Projected Number of certified LTC Ombudsman volunteers = <u>4</u>
2. FY 2023-2024 Baseline: Number of certified LTC Ombudsman volunteers = <u>3</u> FY 2025-2026 Projected Number of certified LTC Ombudsman volunteers = <u>7</u>
3. FY 2024-2025 Baseline: Number of certified LTC Ombudsman volunteers <u>5</u> FY 2026-2027 Projected Number of certified LTC Ombudsman volunteers <u>7</u>
4. FY 2025-2026 Baseline: Number of certified LTC Ombudsman volunteers _____ FY 2027-2028 Projected Number of certified LTC Ombudsman volunteers _____
Program Goals and Objective Numbers: 2.1 PSA 4 (A) 2.

Outcome 3.

Ombudsman representatives accurately and consistently report data about their complaints and other program activities in a timely manner. [Older Americans Act Reauthorization Act of 2020, Section 712(c)]

Measures and Targets:

In narrative format, describe one or more specific efforts your program will undertake in the upcoming year to increase the accuracy, consistency, and timeliness of your National Ombudsman Reporting System (NORS) data reporting.

Some examples could include:

- Hiring additional staff to enter data.
- Updating computer equipment to make data entry easier.
- Initiating a case review process to ensure case entry is completed in a timely manner.

Fiscal Year 2024-2025: Improvements in both data quality and timeliness will be met by additional training and instruction for uniform entry and quality on the NORS codes during in-person staff meetings to enter complaint and activity data more accurately. PSA-4 has developed policy and procedures mandating ombudsmen be responsible for the timely preparation, reporting, and closing of case and activity logs in the database. All cases must have documentation within three (3) business days and are required to enter ongoing information into the case and activity logs until closure. This will help ensure last-minute entries are not made that may be fraught with error, incomplete data, grammatical inaccuracies are fixed in a timely manner and produce accurate information and data. PSA-4 will ensure the data quality dimension by reviewing all data information to confirm there are no duplicate entries.

Fiscal Year 2025-2026: Training in data collection, entry, and reporting is provided during monthly in-person Ombudsman training throughout the year. The OMB PM and Lead OMBs review all ODIN database Activity and Case logs. OMBs are required to adhere to the 3-day policy for data entry and are strongly encouraged to draft notes in Microsoft Word to help ensure grammar and spelling are correct before entry into the ODIN system. (Note: The ODIN system does not have spelling or grammar correction features).

Fiscal Year 2026-2027: Our program is implementing a set of targeted improvements in the upcoming year to strengthen the accuracy, consistency, and timeliness of our National Ombudsman Reporting System (NORS) data. These efforts focus on staff training, quality assurance, system enhancements, and clearer internal processes. PSA-4 will conduct quarterly training sessions focused on NORS definitions, complaint coding, and documentation standards to ensure all representatives apply the criteria consistently. The Lead Ombudsmen and Program Manager will provide monthly calibration reviews to compare coding decisions across staff, identify discrepancies, and reinforce correct interpretation of NORS categories. All new hires will complete a structured NORS training module within their first 30 days to ensure consistent understanding from the outset. A P&P has been developed that establishes internal deadlines for case closure and monthly data entry to ensure information is submitted well ahead of federal reporting deadlines. The Program Manager will continue to run monthly reports to identify overdue cases, incomplete entries, or anomalies requiring correction before quarterly submission. Our program will review federal guidance changes each year and adjust training and procedures accordingly to maintain alignment with national standards.

Fiscal Year 2027-2028

TITLE VII ELDER ABUSE PREVENTION
SERVICE UNIT PLAN

The program conducting the Title VII Elder Abuse Prevention work is:

<input checked="" type="checkbox"/>	Ombudsman Program
<input type="checkbox"/>	Legal Services Provider
<input type="checkbox"/>	Adult Protective Services
<input checked="" type="checkbox"/>	Other (explain/list): Other AAA4 staff for outreach and EAP annual campaign

Units of Service: AAA must complete at least one category from the Units of Service below.

Units of Service categories include public education sessions, training sessions for professionals, training sessions for caregivers served by a Title III E Family Caregiver Support Program, educational materials distributed, and hours of activity spent developing a coordinated system which addresses elder abuse prevention, investigation, and prosecution.

When developing targets for each fiscal year, refer to data reported on the Elder Abuse Prevention Quarterly Activity Reports. Set realistic goals based upon the prior year’s numbers and the resources available. Activities reported for the Title VII Elder Abuse Prevention Program must be distinct from activities reported for the LTC Ombudsman Program. No activity can be reported for both programs.

AAAs must provide one or more of the service categories below.

NOTE: The number of sessions refers to the number of presentations and not the number of attendees

- **Public Education Sessions** –Indicate the total number of projected education sessions for the general public on the identification, prevention, and treatment of elder abuse, neglect, and exploitation.
- **Training Sessions for Professionals** –Indicate the total number of projected training sessions for professionals (service providers, nurses, social workers) on the identification, prevention, and treatment of elder abuse, neglect, and exploitation.
- **Training Sessions for Caregivers Served by Title III E** –Indicate the total number of projected training sessions for unpaid family caregivers who are receiving services under Title III E of the Older Americans Act (OAA) on the identification, prevention, and treatment of elder abuse, neglect, and exploitation. Older Americans Act Reauthorization Act of 2020, Section 302(3) ‘Family caregiver’ means an adult family member, or another individual, who is an informal provider of in-home and community care to an older individual or to an individual with Alzheimer’s disease or a related disorder with neurological and organic brain dysfunction.

- **Hours Spent Developing a Coordinated System to Respond to Elder Abuse** –Indicate the number of hours to be spent developing a coordinated system to respond to elder abuse. This category includes time spent coordinating services provided by the AAA or its contracted service provider with services provided by Adult Protective Services, local law enforcement agencies, legal services providers, and other agencies involved in the protection of elder and dependent adults from abuse, neglect, and exploitation.
- **Educational Materials Distributed** –Indicate the type and number of educational materials to be distributed to the general public, professionals, and caregivers (this may include materials that have been developed by others) to help in the identification, prevention, and treatment of elder abuse, neglect, and exploitation.
- **Number of Individuals Served** –Indicate the total number of individuals expected to be reached by any of the above activities of this program.

TITLE III E SERVICE UNIT PLAN

CCR Article 3, Section 7300(d)

2024-2028 Four-Year Planning Period

The **Title III E** Service Unit Plan (SUP) uses the five federally mandated service categories that encompass 16 subcategories. Refer to the [CDA Service Categories and Data Dictionary](#) for eligible activities and service unit measures:

1. Access Services
2. Information Services
3. Respite Services
4. Supplemental Services
5. Support Services

At least one sub-service category should be provided for each of the five federally mandated service categories. The availability of services for Older Relative Caregivers (ORC) are dependent upon the AAAs individual needs assessment and public hearings.

Use the tables for each service provided and must include the following:

- Specify proposed audience size or units of service for all budgeted area plan funds.
- Providing an associated goal and objective from **Section 7 Area Plan Narrative Goals and Objectives**.

Direct and/or Contracted III E Services – Caregivers of Older Adults (COA)

Provided to family caregivers of adults aged 60 and older or of individuals of any age with Alzheimer's diseases or a related disorder. All service unit reductions of greater than ten percent (10%) from prior Fiscal Year require written justification and approval from CDA.

**HEALTH INSURANCE COUNSELING AND ADVOCACY PROGRAM (HICAP)
SERVICE UNIT PLAN**

**CCR Article 3, Section 7300(d)
WIC § 9535(b)**

MULTIPLE PLANNING AND SERVICE AREA HICAPs (multi-PSA HICAP): Area Agencies on Aging (AAA) that are represented by a multi-PSA, HICAPs must coordinate with their “Managing” AAA to complete their respective PSA’s HICAP Service Unit Plan.

CDA contracts with 26 AAAs to locally manage and provide HICAP services in all 58 counties. Four AAAs are contracted to provide HICAP services in multiple Planning and Service Areas (PSAs). The “Managing” AAA is responsible for providing HICAP services in a way that is equitable among the covered service areas.

HICAP PAID LEGAL SERVICES: Complete this section if HICAP Legal Services are included in the approved HICAP budget.

STATE & FEDERAL PERFORMANCE TARGETS: HICAP is assessed based on State and Federal Performance Measures. AAAs should complete the service unit plan with targets that meet or improve on each PM.

Contact CDA.HICAP@aging.ca.gov for guidance on annual HICAP performance measure targets and definitions

HICAP PMs are calculated from county-level data for all 33 PSAs. HICAP State and Federal PMs, include:

- PM 1.1 Clients Counseled: Number of finalized Intakes for clients/ beneficiaries that received HICAP services
- PM 1.2 Public and Media Events (PAM): Number of completed PAM forms categorized as “interactive” events
- PM 2.1 Client Contacts: Percentage of one-on-one interactions with any Medicare beneficiaries
- PM 2.2 PAM Outreach Contacts: Percentage of persons reached through events categorized as “interactive”
- PM 2.3 Medicare Beneficiaries Under 65: Percentage of one-on-one interactions with Medicare beneficiaries under the age of 65
- PM 2.4 Hard-to-Reach Contacts: Percentage of one-on-one interactions with “hard-to-reach” Medicare beneficiaries designated as,
 - PM 2.4a Low-income (LIS)
 - PM 2.4b Rural
 - PM 2.4c English Second Language (ESL)
- PM 2.5 Enrollment Contacts: Percentage of contacts with one or more qualifying enrollment topics discussed

HICAP service-level data are reported in CDA’s Statewide HICAP Automated Reporting Program (SHARP) system per reporting requirements.

SECTION 10. FAMILY CAREGIVER SUPPORT PROGRAM

**Notice of Intent for Non-Provision of FCSP Multifaceted Systems of Support Services
Older Americans Act Reauthorization Act of 2020, Section 373(a) and (b)
2024-2028 Four-Year Planning Cycle**

Based on the AAA’s needs assessment and subsequent review of current support needs and services for **family caregivers**, indicate what services the AAA **intends** to provide using Title III-E and/or matching FCSP funds for both. This must be completed and updated annually.

Check YES or NO for each of the services* identified below and indicate if the service will be provided directly or contracted. **If the AAA will not provide at least one service subcategory for each of the five main categories, a justification for services not provided is required in the space below.**

Justification: If any of the five main categories are **NOT** being provided please explain how the need is already being met in the PSA. If the justification information is the same, multiple service categories can be grouped in the justification statement. The justification must include the following:

1. **Provider name and address.**
2. **Description of the service(s) they provide (services should match those in the CDA Service Category and Data Dictionary)**
3. **Where is the service provided (entire PSA, certain counties)?**
4. **How does the AAA ensure that the service continues to be provided in the PSA without the use of Title III E funds**

Note: The AAA is responsible for ensuring that the information listed for these organizations is up to date. Please include any updates in the Area Plan Update process.

Justification for lack of Older Relative (Grandparent) Services:

1. Provider name and address:
 Wayfinder Family Services
 8391 Auburn Blvd.
 Citrus Heights, CA 95610
2. Description of the service(s) they provide (services should match those in the CDA Service Category and Data Dictionary):
Wayfinder partners with the Sacramento County Department of Health and Human Services to support two kinship support service centers in north and south Sacramento.

These centers offer support groups, recreational activities, peer mentoring, respite care and referrals for low-cost legal and counseling services. On a very limited basis, individuals in need can also receive bus passes and emergency funds.

3. Where are the services provided (entire PSA, certain counties, etc.)?

Wayfinder has offices in Placer, Sacramento and Yolo counties.

4. How does the AAA ensures that the service continues to be provided in the PSA without the use of Title III E funds?

Area 4 maintains communication with Lilliput to ensure services are continuing and that no significant unmet needs exist.

SECTION 11. LEGAL ASSISTANCE

2024-2028 Four-Year Area Planning Cycle

This section must be completed and submitted annually. The Older Americans Act designates legal assistance as a priority service under Title IIIB. In this section, the AAA must provide information about how the AAA provides legal services within the PSA. This section must be completed and submitted annually by completing the required form.

CDA developed California Statewide Guidelines for Legal Assistance (Guidelines), which are to be used as best practices by CDA, Areas Agency on Aging (AAAs), and Legal Services Providers (LSPs) in the contracting and monitoring processes for legal services.

Instructions

Use the form titled **Section 11. Legal Assistance Template** on the following page to:

- Describe the purpose of legal services.
- Identify Title IIIB funding allocated to legal services.
- Identify if any voluntary contributions are solicited to support legal services.
- Describe changes in legal services needs throughout the PSA.
- Describe the targeted population(s) for legal services and methods for reaching targeted population(s).
- Identify the number of legal service providers in the PSA.
- Specify how the CDA-developed [California Statewide Guidelines for Legal Assistance](#), meant for use as best practices by CDA, AAAs and LSPs in the contracting and monitoring processes for legal, are implemented in your PSA.

- 22 CCR §§ 7575, 7577 and 7579

1. Based on your local needs assessment, what percentage of Title IIIB funding is allocated to Legal Services? **Discuss:** The Minimum allocation is 10%; for SFY 2024-25 the actual allocation is 12.9%, and for SFY 2025-26 the actual allocation is 13.5%.
2. How have your local needs changed in the past year(s)? Please identify any changes (include whether the change affected the level of funding and the difference in funding levels in the past four years). **Discuss:** Retaining safe and affordable housing continues to be a top need of older adults seeking legal support in the wake of the pandemic. This has not changed funding levels.

3. How does the AAA's contract/agreement with the Legal Services Provider(s) (LSPs) specify and ensure that the LSPs are expected to use the California Statewide Guidelines in the provision of OAA legal services? **Discuss:** In our Program Specifications and Standards, we state that "LSPs shall have ready access to the following for all appropriate staff: relevant United States Code and Code of Federal Regulations; local laws and regulations; relevant California laws, regulations and rules; manuals for relevant government programs; relevant support center manuals, newsletters, information and referral manuals; and a law library." In addition, clear instruction is given by the AAA4 Regional Services Specialist that the California Statewide Guidelines must be followed. These guidelines as well as the California Uniform Reporting System Instructions and Definitions are linked and referenced during the annual monitoring process. AAA4 integrated the contents of the Statewide Legal Services Guidelines (Guidelines) into the Program Specifications & Application portion of our Request for Proposals (RFP). More specifically, content from Section VIII of the Guidelines was added to Section J of the RFP document, and the Guidelines are referenced in Section L. When an applicant is awarded funds, their Program Spec/Application is made a part of their service contract via incorporation by reference. This ensures our Legal Services Providers are aware of their ongoing obligation to abide by the Guidelines.
4. How does the AAA collaborate with the Legal Services Provider(s) to jointly establish specific priority issues for legal services? What are the top four (4) priority legal issues in your PSA? **Discuss:** We collaborate with our Legal Services Providers to establish priority legal issues. Priorities are set based on the results of regular surveys with clients, staff, and the general public. The top four priority issues in our PSA are currently Housing (tenant's rights, utilities), Health Care, Economic Stability/Nutrition, Family Safety and Stability.
5. How does the AAA collaborate with the Legal Services Provider(s) to jointly identify the target population? What is the targeted senior population and mechanism for reaching targeted groups in your PSA? **Discuss:** We collaborate to identify target populations. Services are targeted to those people with the greatest social or economic need but not limited to low-income individuals, minorities, rural residents and those with limited English proficiency. Groups that should be considered to receive priority for legal assistance services include older adults who are:
- Homebound
 - Residing in long-term care facility
 - Without access to transportation
 - Living alone with no support or geographically isolated
 - Experiencing chronic health issues
 - Experiencing homelessness or at risk of homelessness
 - Deaf/hearing/vision impaired
 - LGBTQ+
 - Limited English Proficiency
 - People with physical disabilities
 - People with dementia or other mental capacity issues
 - Grandparents caring for grandchildren
 - Formerly incarcerated

These target populations were gathered with a variety of input from our funded partners, Advisory Council, Governing Board and the knowledge of those in leadership at AAA4. Our Funded Partners reach out to these communities directly in different ways. Some programs will annually put flyers in home delivered meal packets to reach out to the home bound population. Educational presentations and office hours are regularly held in Low Income Senior Housing and at other locations where target populations are found.

6. How many legal assistance service providers are in your PSA? Complete table below.

Fiscal Year	# of Legal Assistance Services Providers	Did the number of service providers change? If so please explain
2024-2025	4	Yes, we no longer contract with Community Beyond Violence in Nevada/Sierra counties.
2025-2026	4	No
2026-2027		
2027-2028		

¹² For guidance questions related to Legal Services, contact Legal Services Developer at LegalServices@aging.ca.gov

7. What methods of outreach are Legal Services Providers using? Discuss: The Legal Services Providers are using multiple methods of outreach in our communities. Service Providers participate in health fairs and outreach events where they provide information and outreach materials to the public. They conduct educational presentations and training to community partner organizations, including the ADRCs. Legal Services Providers also offer office hours open to the public at Focal Points, Senior Centers and other CBOs.

8. What geographic regions are covered by each provider? **Complete table below:**

Fiscal Year	Name of Provider	Geographic Region covered
2024-2025	a. LSNC Motherlode b. LSNC Yolo c. LSNC Sacramento d. Yuba Sutter Legal Center	a. Placer, Nevada and Sierra Counties b. Yolo County c. Sacramento County d. Yuba and Sutter Counties
2025-2026	a. LSNC Motherlode b. LSNC Yolo c. LSNC Sacramento d. Yuba Sutter Legal Center	a. Placer, Nevada and Sierra Counties b. Yolo County c. Sacramento County d. Yuba and Sutter Counties
2026-2027	a. b. c.	a. b. c.
2027-2028	a. b. c.	a. b. c.

9. Discuss how older adults access Legal Services in your PSA and whether they can receive assistance remotely (e.g., virtual legal clinics, phone, U.S. Mail, etc.). **Discuss:** Potential clients can call, email, use the U.S. postal service or show up in person to receive legal assistance. They can also access Legal Services at remote locations during office hours held in community centers and other CBOs.
10. Identify the major types of legal issues that are handled by the Title IIIB legal provider(s) in your PSA (please include new legal problem trends in your area). **Discuss:** Preservation of housing is a major area that our Legal Services Providers are currently focused on. The temporary moratorium on evictions was lifted after the pandemic and older adults are losing their housing due to rent increases, new landlords, and other property management issues. Our LSPs are continuing to prioritize these housing needs. Health care, economic stability, access to public benefits, and family safety and stability are also major issues older adults are currently bringing to our providers. There are no new legal problem trends in our area as of September 2025. Our LSPs conduct a survey about priority issues every three years, with the next survey going out in late 2025.
11. What are the barriers to accessing legal assistance in your PSA? Include proposed strategies for overcoming such barriers. **Discuss:** The Legal Service Providers in most of our counties are encountering challenges in recruiting and retaining attorneys and other staff. This can make providing services challenging. Barriers that may affect delivery of legal services, including geographic limitations, language barriers, lack of awareness of available services, are being addressed by our Legal Service provider by utilizing strategies such as teleconferencing and mobile legal clinics to increase accessibility especially in our frontier communities. Additionally, our providers are actively engaging in community outreach and education by partnering with local organizations and senior centers to raise awareness and ensure that services reach those in need.

12. What other organizations or groups does your legal service provider coordinate services with? **Discuss:** Our Legal Services Providers coordinate services with a wide range of local organizations, including county services, Independent Living Centers, Victim support centers, CBOs, Collaboration Committees and others. The LSPs also participate in the ADRCs in their counties, providing presentations and coordination with numerous organizations that support older adults and people with disabilities. Legal Services of Northern California is the designated Legal Services Corporation for all seven counties in PSA 4. LSNC is primary legal services provider for five counties in our PSA and also serves as the HICAP provider across all seven counties in the region. Due to their legal proximity, they naturally collaborate to coordinate their efforts. The Yuba Sutter Legal Center is the legal services provider for Yuba and Sutter Counties and works closely with the HICAP provider, even offering physical space for HICAP counseling. Additionally, the Ombudsman provider, a branch of AAA4, plays a key coordinating role by offering referrals and resources to their clientele as needed. In accordance with regulations, LSNC has an MOU in place with AAA4's Long-Term Care Ombudsman Program which addresses conflicts of interest, the provision of legal advice, and procedures for referral and other technical assistance.

SECTION 12. DISASTER PREPAREDNESS

Disaster Preparation Planning Conducted for the 2024-2028 Planning Cycle Older Americans Act Reauthorization Act of 2020, Section 306(a)(17); 310, CCR Title 22, Sections 7529 (a)(4) and 7547, W&I Code Division 8.5, Sections 9625 and 9716, CDA Standard Agreement, Exhibit E, Article 1, 22-25, Program Memo 10-29(P)

1. Describe how the AAA coordinates its disaster preparedness plans, policies, and procedures for emergency preparedness and response as required in OAA, Title III, Section 310 with:
 - local emergency response agencies,
 - relief organizations,
 - state and local governments, and
 - other organizations responsible

The disaster mission of AAA4 is to maintain the continuity of critical services to older adults, people with disabilities and to ensure, to the maximum extent possible, that the special needs of all older adults and people with disabilities are adequately met for a safe and full recovery from a disaster. In order to fulfill our mission, AAA4 has developed an Agency Emergency Plan to enable our organization to plan and prepare to meet the needs of our staff, subcontracted funded partners, and the people we serve in the event of a disaster. This includes continuation of essential office functions. Additionally, funded partners that provide these vital services are also required to maintain up-to-date disaster and emergency plans. The AAA4 Disaster Response Coordinator acts as the liaison between funded partners and CDA. We maintain close communication with our partners, offering assistance and support as soon as we are notified of any PSPS events or disasters. Our partners provide regular updates on any issues or assistance they have delivered to their consumers, as well as any challenges encountered during the process. Additionally, we review each partner's disaster plan annually to ensure compliance and preparedness.

2. Identify each of the local Office of Emergency Services (OES) contact person(s) within the PSA that the AAA will coordinate with in the event of a disaster (add additional information as needed for each OES within the PSA):

Nancy Vasquez	Program Administrator	Cell: 916-337-2257 Office: 916-710-8366	nvasquez@agencyonaging4.org

4. List critical services the AAA will continue to provide to the participants after a disaster and describe how these services will be delivered (i.e., Wellness Checks, Information, Nutrition programs):

Critical Services	How Delivered?
A Information & Assistance (I&A)	A I&A Funded Partners must have emergency procedures in place that include how they will coordinate up-to-date post-emergency information with organizations in order to provide critical referrals to needed services. (e.g., shelter locations for people with disabilities and animals, forms completion, financial assistance, mental health, etc.)
B Nutrition	B Many of our nutrition funded partners maintain emergency meal inventories and/or have MOUs with alternate meal preparation sites in order to continue or expand food services.
C In-Home Funded Partners	C In-Home Funded Partners must contact all affected program participants and/or their emergency contacts to determine their safety. ("In-Home Funded Partners," are defined as any funded partner who goes into homes of clients to provide assessments, repairs, modifications, etc.)
D	D

5. List critical services the AAA will provide to its operations after a disaster and describe how these services will be delivered (i.e., Cyber Attack, Fire at your building, Evacuation of site, Employee needs)

Critical Services	How Delivered?
A Cyber Attack	Most critical agency information (contracts, insurance doc, Personnel, etc.) are maintained electronically and are backed up on the servers that are monitored by the IT Manager. Agency Servers are backed up each night to a cloud service and stored locally. All files within Office 365 and Teams environment are stored in the Cloud and backed up by Microsoft and third-party software.
B Fire at building	B Evacuate immediately and assemble at the designated parking lot.
C Evacuation on site	C If evacuation is deemed necessary, inform the Director, and implement an Evacuation Plan. Administrators and managers will then begin the phone tree process, contacting their respective staff members.
D Employee Needs	D Program administrators and managers will check-in, ensure safety, provide support and resources, provide reassurance and follow up. The issue of ensuring that essential services for our staff—such as paychecks, internet access, and other administrative tasks—are maintained in the event of a disaster has been addressed. To mitigate any disruptions, we have equipped the entire staff to work remotely, ensuring that service delivery and administrative operations continue without interruption.

6. List critical resources the AAA need to continue operations.

- Personnel
- Access to electricity
- Communication Systems i.e. computer access, internet access, Microsoft 365, Teams, Ring Central
- Information Systems access to critical data, software, and IT infrastructure

7. List any agencies or private/non-government organizations with which the AAA has formal or nonformal emergency preparation or response agreements. (contractual or MOU)

AAA4 has no formal agreements with preparation or response agencies. AAA4 staff regularly attends Joint Operational Area Council meeting/ Emergency coordinator meetings in service area to ensure that the needs of older adults and people with disabilities are included in all preparedness and response activities within the Counties.

8. Describe how the AAA will:

- Identify vulnerable populations:
AAA4 requires all subcontractors to designate Disaster Coordinators and Alternate Coordinators and will manage information and services with those individuals affected by an emergency, including how older adults have been affected. This information is reported to the CDA-AAA Disaster Response Coordinator. (CDA 42 form)
- Identify possible needs of the participants before a disaster event (PSPS, Flood, Earthquake, ETC)
Risk and needs assessments and community engagement. By using these methods and approaches, AAA can better identify and understand the possible needs of consumers before a disaster event and develop plans/strategies to mitigate risks.
- Follow up with vulnerable populations after a disaster event.
AAA4 Disaster Response Coordinator will follow-up with subcontractor Disaster coordinators in affected areas to determine the outcomes, if applicable, at various intervals following an emergency.

9. How is disaster preparedness training provided?

- AAA to participants and caregivers
ILC partners provide ongoing emergency preparedness training and AAA4 staff are encouraged to participate. ILC staff train AAA4 staff to assist with emergency applications during a PSPS event.
- To staff and subcontractors
Subcontractors to complete CDA 42 Forms every Fiscal Year. AAA4's safety committee meets monthly to develop, review, and schedule safety protocol trainings. These trainings are delivered to staff on a monthly basis, along with evacuation drills and quarterly assessments of the facility for safety concerns. Staff are regularly trained on various emergency scenarios, and key staff members are also trained in CPR, AED, and first aid.

Describe methods to be used to ensure target populations will be served throughout the PSA. *Targeting is explained in detail in Section 5 of this plan. In short, many of the direct services provided by AAA4 are designed to reach particular audiences that include one or more of the targeted groups. AAA4 makes a concerted effort to reach out to organizations that serve targeted communities to be sure they are aware of Older Americans and Older Californians Act programs.*

As a complement to AAA4's Title III-B Case Management program, the Agency seeks permission from the Department of Aging to offer Title III-B Cash/Material Aid to existing Case Management clients on an as-needed basis and as limited resources permit.

Priority would be given to clients who would benefit from one-time assistance to prevent adverse consequences to their personal health or safety. In accordance with the CDA Data Dictionary, such assistance could be provided in the form of commodities, surplus food distribution, vouchers, or direct payment to vendors.

SECTION 14 – Congregate Meals

Since 2014, AAA4 has been providing a non-traditional meal program called Dine Around Town which features restaurant vouchers in Yuba and Sutter counties. Meals are provided at approved restaurants that comply with all applicable guidelines and regulations for regular congregate meals. Vouchers are only redeemable for specific, pre-approved menu items, and the meals must be eaten on site. Vouchers are periodically distributed to the program participants in person at the Yuba City Senior Center so that nutrition education and other pertinent information can be provided.

This continues to be a popular program. Participants enjoy being able to have breakfast, lunch or dinner at any time of day. Participating restaurants benefit from having a steady stream of clients. The community benefits because more dollars are staying in the local economy. It is a win-win-win service model for everyone involved.

Although less costly meals are readily available from other sources, healthy meals with good nutritional value for Older Adults are neither inexpensive nor easily accessible for the food insecure individuals whom Dine Around Town targets.

SECTION 14 – Employment

Agency on Aging \ Area 4 (AAA4) first received approval from the Department of Aging to provide a Title III-B Employment program as a direct service in 2001. AAA4 plans to continue this program throughout the 2024-28 planning cycle in Placer, Sacramento, and Yolo counties.

Arguably, the most impactful and dignified way to help an able-bodied Older Adult maintain financial security is to empower them to return to the paid workforce in an occupation of their choosing.

The Mature Edge Job Readiness Program offers a series of interactive job readiness sessions designed to prepare the mature worker for a productive and successful job search. Sessions include preparing effective targeted resumes and cover letters, strategic interviewing, access to the job market, and the skills necessary to maintain a job. Additionally, the Program offers one-on-one job coaching, referrals appropriate employment opportunities, and access to area employers who are seeking older workers.

The Mature Edge Job Readiness Program is the only employment program for seniors in PSA 4 without income restrictions, and while there are employment programs in the area, the Job Readiness Program is the only employment program designed specifically to assist seniors sixty years of age and over. Mature Edge receives referrals from other programs that are not designed to assist the older worker.

AAA4 has assured an economical delivery of services and will continue to do so by only charging direct operational costs to the Job Readiness Program.

At this time, there is no funding source to continue this program, so it is scheduled for closure on June 30, 2025.

SECTION 14 – Home-Delivered Meals

AAA4 became the lead administrative operator of **Meals on Wheels Yuba & Sutter Counties** by default in 2013 when no other suitable organization stepped forward to fill an unexpected gap in contracted services. To date, no bids for the provision of home-delivered meal services in the Yuba – Sutter area have been submitted through the RFP (request for proposal) process. AAA4 intends to continue as the direct service provider until another organization is willing and able to take over the program in a more economical manner.

SECTION 14 – HOUSING

Housing security is a paramount concern for older adults who are being affected by the severe shortage of housing units in the State and in the Sacramento region which is driving up costs for people who own their homes as well as those who rent a home. At the same time, loneliness and social isolation remain pervasive problems.

Co-living represents a fresh and dynamic approach to address the current shortage of housing with housing wants and needs of older adults, aligning with modern older adults' aspirations for independence, social engagement, and active lifestyles. By promoting communal living, shared experiences, and support services, co-living caters to the evolving needs and desires of older adults. As the aging population continues to grow, the demand for innovative and inclusive living options is expected to increase. Co-living is more than a roommate matching service, it strives to foster a sense of belonging, enhancing overall well-being.

AAA4's newly branded Key Connections Co-living program will focus on age 60+ home providers and home seekers and will match compatible individuals in a mutually beneficial co-living arrangement.

AAA4 Staff will perform extensive in-person screenings of both parties and facilitates in-person engagements between them. If the home providers and home seekers feel a match could be made, then a short-term, in-home visit will be scheduled and conducted as a tool to finalize the match before moving forward with a written co-living agreement.

While there are not nearly enough affordable housing units to meet the demand, there are enough unoccupied bedrooms among the existing housing stock to potentially house hundreds of people. AAA4's Key Connections Co-Living Program of AAA4 will provide a safe mechanism for homeowners to convert some of those spare rooms into living spaces, and it does so in a person-centered manner that brings tangible value to home providers and home seekers.

Yes No Additional Other (Optional)

- Family Caregiver, including older relative caregiver
- Tribal Representative
- LGBTQ Identification
- Veteran Status
- Other

Explain any “No” answer(s): It is unusual for AAA4 to have elected officials serve as Advisory Council members; we primarily address matters of concern to counties and County Supervisors sit on our Governing Board. AAA4 does not administer Title VI programs for Native Americans. Historically, the Agency has had very little contact with local tribal organizations.

Explain what happens when term expires, for example, are the members permitted to remain in their positions until reappointments are secured? Have they been replaced, renewed or other?

Unless the member or the appointing body has informed AAA4 that a reappointment is not forthcoming, members may remain in their positions while formal notifications are in progress.

Briefly describe the local governing board’s process to appoint Advisory Council members:

AAA4 is a joint powers authority. The Governing Board is composed of members of each of the seven county Boards of Supervisors or their appointees. The 35-member Advisory Council is composed of representatives from each of the seven counties. Individual Advisory Council members may be appointed by County Boards of Supervisors, County Commissions on Aging (or their equivalents) or by the Council’s Executive Committee, as Members At Large.

SECTION 19. ASSURANCES

Pursuant to the Older Americans Act Reauthorization Act of 2020, (OAA), the Area Agency on Aging assures that it will:

Sec. 306, AREA PLANS

(a) Each area agency on aging designated under section 305(a)(2)(A) shall, in order to be approved by the State agency, prepare and develop an area plan for a planning and service area for a two-, three-, or four-year period determined by the State agency, with such annual adjustments as may be necessary. Each such plan shall be based upon a uniform format for area plans within the State prepared in accordance with section 307(a)(1). Each such plan shall

(1) provide, through a comprehensive and coordinated system, for supportive services, nutrition services, and, where appropriate, for the establishment, maintenance, modernization, or construction of multipurpose senior centers (including a plan to use the skills and services of older individuals in paid and unpaid work, including multigenerational and older individual to older individual work), within the planning and service area covered by the plan, including determining the extent of need for supportive services, nutrition services, and multipurpose senior centers in such area (taking into consideration, among other things, the number of older individuals with low incomes residing in such area, the number of older individuals who have greatest economic need (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) residing in such area, the number of older individuals who have greatest social need (with particular attention to low-income older individuals, including low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas) residing in such area, the number of older individuals at risk for institutional placement residing in such area, and the number of older individuals who are Indians residing in such area, and the efforts of voluntary organizations in the community), evaluating the effectiveness of the use of resources in meeting such need, and entering into agreements with providers of supportive services, nutrition services, or multipurpose senior centers in such area, for the provision of such services or centers to meet such need;

(2) provide assurances that an adequate proportion, as required under section 307(a)(2), of the amount allotted for part B to the planning and service area will be expended for the delivery of each of the following categories of services—

(A) services associated with access to services (transportation, health services (including mental and behavioral health services), outreach, information and assistance (which may include information and assistance to consumers on availability of services under part B and how to receive benefits under and participate in publicly supported programs for which the consumer may be eligible) and case management services);

(B) in-home services, including supportive services for families of older individuals with Alzheimer's disease and related disorders with neurological and organic brain dysfunction; and

(C) legal assistance;

and assurances that the area agency on aging will report annually to the State agency in detail

the amount of funds expended for each such category during the fiscal year most recently concluded;

(3)(A) designate, where feasible, a focal point for comprehensive service delivery in each community, giving special consideration to designating multipurpose senior centers (including multipurpose senior centers operated by organizations referred to in paragraph (6)(C)) as such focal point; and

(B) specify, in grants, contracts, and agreements implementing the plan, the identity of each focal point so designated;

(4)(A)(i) (I) provide assurances that the area agency on aging will—

(aa) set specific objectives, consistent with State policy, for providing services to older individuals with greatest economic need, older individuals with greatest social need, and older individuals at risk for institutional placement;

(bb) include specific objectives for providing services to low-income minority older individuals, older individuals with limited English proficiency, and older individuals residing in rural areas; and

(II) include proposed methods to achieve the objectives described in items (aa) and (bb) of sub-clause (I);

(ii) provide assurances that the area agency on aging will include in each agreement made with a provider of any service under this title, a requirement that such provider will—

(I) specify how the provider intends to satisfy the service needs of low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas in the area served by the provider;

(II) to the maximum extent feasible, provide services to low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas in accordance with their need for such services; and

(III) meet specific objectives established by the area agency on aging, for providing services to low-income minority individuals, older individuals with limited English proficiency, and older individuals residing in rural areas within the planning and service area; and

(iii) with respect to the fiscal year preceding the fiscal year for which such plan is prepared —

(I) identify the number of low-income minority older individuals in the planning and service area;

(II) describe the methods used to satisfy the service needs of such minority older individuals; and

(III) provide information on the extent to which the area agency on aging met the objectives described in clause (i).

(B) provide assurances that the area agency on aging will use outreach efforts that will—

(i) identify individuals eligible for assistance under this Act, with special emphasis on—

(I) older individuals residing in rural areas;

(II) older individuals with greatest economic need (with particular attention to low-income minority individuals and older individuals residing in rural areas);

(III) older individuals with greatest social need (with particular attention to low-income minority individuals and older individuals residing in rural areas);

(IV) older individuals with severe disabilities;

(V) older individuals with limited English proficiency;

(VI) older individuals with Alzheimer's disease and related disorders with neurological and organic brain dysfunction (and the caretakers of such individuals); and

(VII) older individuals at risk for institutional placement, specifically including survivors of the Holocaust; and

(ii) inform the older individuals referred to in sub-clauses (I) through (VII) of clause (i), and the caretakers of such individuals, of the availability of such assistance; and

(C) contain an assurance that the area agency on aging will ensure that each activity undertaken by the agency, including planning, advocacy, and systems development, will include a focus on the needs of low-income minority older individuals and older individuals residing in rural areas.

(5) provide assurances that the area agency on aging will coordinate planning, identification, assessment of needs, and provision of services for older individuals with disabilities, with particular attention to individuals with severe disabilities, and individuals at risk for institutional placement, with agencies that develop or provide services for individuals with disabilities;

(6) provide that the area agency on aging will—

(A) take into account in connection with matters of general policy arising in the development and administration of the area plan, the views of recipients of services under such plan;

(B) serve as the advocate and focal point for older individuals within the community by (in cooperation with agencies, organizations, and individuals participating in activities under the plan) monitoring, evaluating, and commenting upon all policies, programs, hearings, levies, and community actions which will affect older individuals;

(C)(i) where possible, enter into arrangements with organizations providing day care services for children, assistance to older individuals caring for relatives who are children, and respite for families, so as to provide opportunities for older individuals to aid or assist on a voluntary basis in the delivery of such services to children, adults, and families;

(ii) if possible regarding the provision of services under this title, enter into arrangements and coordinate with organizations that have a proven record of providing services to older individuals, that—

(I) were officially designated as community action agencies or community action programs under section 210 of the Economic Opportunity Act of 1964 (42U.S.C. 2790) for fiscal year 1981, and did not lose the designation as a result of failure to comply with such Act; or

(II) came into existence during fiscal year 1982 as direct successors in interest to such community action agencies or community action programs; and that meet the requirements under section 676B of the Community Services Block Grant Act; and

(iii) make use of trained volunteers in providing direct services delivered to older individuals and individuals with disabilities needing such services and, if possible, work in coordination with organizations that have experience in providing training, placement, and stipends for volunteers or participants (such as organizations carrying out Federal service programs administered by the Corporation for National and Community Service), in community service settings;

(D) establish an advisory council consisting of older individuals (including minority individuals and older individuals residing in rural areas) who are participants or who are eligible to participate in programs assisted under this Act, family caregivers of such individuals, representatives of older individuals, service providers, representatives of the business community, local elected officials, providers of veterans' health care (if appropriate), and the general public, to advise continuously the area agency on aging on all matters relating to the development of the area plan, the administration of the plan and operations conducted under the plan;

(E) establish effective and efficient procedures for coordination of—

(i) entities conducting programs that receive assistance under this Act within the planning and service area served by the agency; and

(ii) entities conducting other Federal programs for older individuals at the local level, with particular emphasis on entities conducting programs described in section 203(b), within the area;

(F) in coordination with the State agency and with the State agency responsible for mental and behavioral health services, increase public awareness of mental health disorders, remove barriers to diagnosis and treatment, and coordinate mental and behavioral health services (including mental health screenings) provided with funds expended by the area agency on aging with mental and behavioral health services provided by community health centers and by other public agencies and nonprofit private organizations;

(G) if there is a significant population of older individuals who are Indians in the planning and service area of the area agency on aging, the area agency on aging shall conduct outreach activities to identify such individuals in such area and shall inform such individuals of the availability of assistance under this Act;

(H) in coordination with the State agency and with the State agency responsible for elder abuse prevention services, increase public awareness of elder abuse, neglect, and exploitation, and remove barriers to education, prevention, investigation, and treatment of elder abuse, neglect, and exploitation, as appropriate; and

(I) to the extent feasible, coordinate with the State agency to disseminate information about the State assistive technology entity and access to assistive technology options for serving older individuals;

(7) provide that the area agency on aging shall, consistent with this section, facilitate the areawide development and implementation of a comprehensive, coordinated system for providing long-term care in home and community-based settings, in a manner responsive to the needs and preferences of older individuals and their family caregivers, by—

(A) collaborating, coordinating activities, and consulting with other local public and private agencies and organizations responsible for administering programs, benefits, and services related to providing long-term care;

(B) conducting analyses and making recommendations with respect to strategies for modifying the local system of long-term care to better—

(i) respond to the needs and preferences of older individuals and family caregivers;

(ii) facilitate the provision, by service providers, of long-term care in home and community-based settings; and

(iii) target services to older individuals at risk for institutional placement, to permit such individuals to remain in home and community-based settings;

(C) implementing, through the agency or service providers, evidence-based programs to assist older individuals and their family caregivers in learning about and making behavioral changes intended to reduce the risk of injury, disease, and disability among older individuals; and

(D) providing for the availability and distribution (through public education campaigns, Aging and Disability Resource Centers, the area agency on aging itself, and other appropriate means) of information relating to—

(i) the need to plan in advance for long-term care; and

(ii) the full range of available public and private long-term care (including integrated long-term care) programs, options, service providers, and resources;

(8) provide that case management services provided under this title through the area agency on aging will—

(A) not duplicate case management services provided through other Federal and State programs;

(B) be coordinated with services described in subparagraph (A); and

(C) be provided by a public agency or a nonprofit private agency that—

(i) gives each older individual seeking services under this title a list of agencies that provide similar services within the jurisdiction of the area agency on aging;

(ii) gives each individual described in clause (i) a statement specifying that the individual has a right to make an independent choice of service providers and documents receipt by such individual of such statement;

(iii) has case managers acting as agents for the individuals receiving the services and not as promoters for the agency providing such services; or

(iv) is located in a rural area and obtains a waiver of the requirements described in clauses (i) through (iii);

(9)(A) provide assurances that the area agency on aging, in carrying out the State Long-Term Care Ombudsman program under section 307(a)(9), will expend not less than the total amount of funds appropriated under this Act and expended by the agency in fiscal year 2019 in carrying out such a program under this title;

(B) funds made available to the area agency on aging pursuant to section 712 shall be used to supplement and not supplant other Federal, State, and local funds expended to support activities described in section 712;

(10) provide a grievance procedure for older individuals who are dissatisfied with or denied services under this title;

(11) provide information and assurances concerning services to older individuals who are Native Americans (referred to in this paragraph as "older Native Americans"), including—

(A) information concerning whether there is a significant population of older Native Americans in the planning and service area and if so, an assurance that the area agency on aging will pursue activities, including outreach, to increase access of those older Native Americans to programs and benefits provided under this title;

(B) an assurance that the area agency on aging will, to the maximum extent practicable, coordinate the services the agency provides under this title with services provided under title VI; and

(C) an assurance that the area agency on aging will make services under the area plan available, to the same extent as such services are available to older individuals within the planning and service area, to older Native Americans;

(12) provide that the area agency on aging will establish procedures for coordination of services with entities conducting other Federal or federally assisted programs for older individuals at the local level, with particular emphasis on entities conducting programs described in section 203(b) within the planning and service area.

(13) provide assurances that the area agency on aging will—

(A) maintain the integrity and public purpose of services provided, and service providers, under

this title in all contractual and commercial relationships;

(B) disclose to the Assistant Secretary and the State agency—

(i) the identity of each nongovernmental entity with which such agency has a contract or commercial relationship relating to providing any service to older individuals; and

(ii) the nature of such contract or such relationship;

(C) demonstrate that a loss or diminution in the quantity or quality of the services provided, or to be provided, under this title by such agency has not resulted and will not result from such contract or such relationship;

(D) demonstrate that the quantity or quality of the services to be provided under this title by such agency will be enhanced as a result of such contract or such relationship; and

(E) on the request of the Assistant Secretary or the State, for the purpose of monitoring compliance with this Act (including conducting an audit), disclose all sources and expenditures of funds such agency receives or expends to provide services to older individuals;

(14) provide assurances that preference in receiving services under this title will not be given by the area agency on aging to particular older individuals as a result of a contract or commercial relationship that is not carried out to implement this title;

(15) provide assurances that funds received under this title will be used—

(A) to provide benefits and services to older individuals, giving priority to older individuals identified in paragraph (4)(A)(i); and

(B) in compliance with the assurances specified in paragraph (13) and the limitations specified in section 212;

(16) provide, to the extent feasible, for the furnishing of services under this Act, consistent with self-directed care;

(17) include information detailing how the area agency on aging will coordinate activities, and develop long-range emergency preparedness plans, with local and State emergency response agencies, relief organizations, local and State governments, and any other institutions that have responsibility for disaster relief service delivery;

(18) provide assurances that the area agency on aging will collect data to determine—

(A) the services that are needed by older individuals whose needs were the focus of all centers funded under title IV in fiscal year 2019; and

(B) the effectiveness of the programs, policies, and services provided by such area agency on aging in assisting such individuals; and

(19) provide assurances that the area agency on aging will use outreach efforts that will identify individuals eligible for assistance under this Act, with special emphasis on those individuals whose needs were the focus of all centers funded under title IV in fiscal year 2019.

(b)(1) An area agency on aging may include in the area plan an assessment of how prepared the area agency on aging and service providers in the planning and service area are for any anticipated change in the number of older individuals during the 10-year period following the fiscal year for which the plan is submitted.

(2) Such assessment may include—

(A) the projected change in the number of older individuals in the planning and service area;

(B) an analysis of how such change may affect such individuals, including individuals with low incomes, individuals with greatest economic need, minority older individuals, older individuals residing in rural areas, and older individuals with limited English proficiency;

(C) an analysis of how the programs, policies, and services provided by such area agency can be improved, and how resource levels can be adjusted to meet the needs of the changing population of older individuals in the planning and service area; and

(D) an analysis of how the change in the number of individuals age 85 and older in the planning and service area is expected to affect the need for supportive services.

(3) An area agency on aging, in cooperation with government officials, State agencies, tribal organizations, or local entities, may make recommendations to government officials in the planning and service area and the State, on actions determined by the area agency to build the capacity in the planning and service area to meet the needs of older individuals for—

(A) health and human services;

(B) land use;

(C) housing;

(D) transportation;

(E) public safety;

(F) workforce and economic development;

(G) recreation;

(H) education;

(I) civic engagement;

(J) emergency preparedness;

(K) protection from elder abuse, neglect, and exploitation;

(L) assistive technology devices and services; and

(M) any other service as determined by such agency.

(c) Each State, in approving area agency on aging plans under this section, shall waive the requirement described in paragraph (2) of subsection (a) for any category of services described in such paragraph if the area agency on aging demonstrates to the State agency that services being furnished for such category in the area are sufficient to meet the need for such services in such area and had conducted a timely public hearing upon request.

(d)(1) Subject to regulations prescribed by the Assistant Secretary, an area agency on aging designated under section 305(a)(2)(A) or, in areas of a State where no such agency has been designated, the State agency, may enter into agreement with agencies administering programs under the Rehabilitation Act of 1973, and titles XIX and XX of the Social Security Act for the purpose of developing and implementing plans for meeting the common need for transportation services of individuals receiving benefits under such Acts and older individuals participating in programs authorized by this title.

(2) In accordance with an agreement entered into under paragraph (1), funds appropriated under this title may be used to purchase transportation services for older individuals and may be pooled with funds made available for the provision of transportation services under the Rehabilitation Act of 1973, and titles XIX and XX of the Social Security Act.

(e) An area agency on aging may not require any provider of legal assistance under this title to reveal any information that is protected by the attorney-client privilege.

(f)(1) If the head of a State agency finds that an area agency on aging has failed to comply with Federal or State laws, including the area plan requirements of this section, regulations, or policies, the State may withhold a portion of the funds to the area agency on aging available under this title.

(2)(A) The head of a State agency shall not make a final determination withholding funds under paragraph (1) without first affording the area agency on aging due process in accordance with procedures established by the State agency.

(B) At a minimum, such procedures shall include procedures for—

(i) providing notice of an action to withhold funds;

(ii) providing documentation of the need for such action; and

(iii) at the request of the area agency on aging, conducting a public hearing concerning the action.

(3)(A) If a State agency withholds the funds, the State agency may use the funds withheld to directly administer programs under this title in the planning and service area served by the area agency on aging for a period not to exceed 180 days, except as provided in subparagraph (B).

(B) If the State agency determines that the area agency on aging has not taken corrective action, or if the State agency does not approve the corrective action, during the 180-day period described in subparagraph (A), the State agency may extend the period for not more than 90 days.

(g) Nothing in this Act shall restrict an area agency on aging from providing services not provided or authorized by this Act, including through—

(1) contracts with health care payers;

(2) consumer private pay programs; or

(3) other arrangements with entities or individuals that increase the availability of home and community-based services and supports.

Older Californians Act (OCA) Modernization Supplemental Summary

Program Memo 23-13 outlines the funding intent, allowable activities, and distribution of general funds for modernizing the Mello-Granlund Older Californians Act. Funding for these efforts include State General Funds granted in response to the AAAs network’s legislative proposal. If the AAA is using the modernization funding to expand the scope of the existing OCA programs and/or fund community-based service programs, the supplemental summary document of the actions being taken at the AAA should be completed. The narrative summary should include programmatic actions being funded and the services provided including Nutrition Modernization programs.

Description of program(s) being funded:

AAA4 has been awarded Older Californians Act Modernization (OCAM) funds which are being dispersed by the California Department of Aging in separate batches as shown in the chart below.

Grant Year	Grant Period	Dollars Available
Year One: Aging in Place	1/23 to 3/25	\$1,734,939
Year Two: Aging in Place	7/23 to 3/26	\$1,258,715
Year Two: Nutrition	7/23 to 3/26	\$824,730
Year Three: Nutrition	7/24 to 3/27	\$2,083,445
TOTAL		\$5,901,829

The Agency has discretion to utilize the Year One funds as it sees fit. AAA4 Staff conversations have focused around three of the fundable categories: Aging in Place (i.e., Title III-B Supportive Services augmentation, housing navigation, shared senior housing and rental assistance); Senior Volunteer Development, and restoring one or more OCA programs (i.e., Alzheimer’s Day Care & Resource Centers, Brown Bag food commodities and Linkages case management). These interests were first shared with AAA4’s Advisory Council and the Governing Board in February.

A brief survey of current recipients of Title III-B funds was conducted in March, and a summary of the results was presented during the Advisory Council meeting. The total funds requested exceeded the total amount of OCAM funds available (\$2.6 million) by roughly \$270,000. In an effort to arrive at an equitable solution that includes a designation of funds for Senior Volunteer Development and the possibility of restoring one or more OCA programs, AAA4 Staff conducted a second, more detailed OCAM survey with a narrowed focus. Due to the limited availability of funds, requests that are beyond the normal scope of the Title III-B Service Category for which they are being sought have been excluded from consideration.

Furthermore, upon input from the Advisory Council, the second survey included the following guidance, “AAA4 will prioritize OCAM requests for products and services that represent prudent investments in Title III-B funded programs that have lasting value for current and future clients, particularly those with the greatest social and economic needs. Organizations are welcome to amend their original requests, as necessary, to align with these goals.”

All fifteen eligible organizations responded to the second OCAM survey. Some of the individual requests contain elements that fall outside the established parameters; those elements will need to be removed or modified. The summary chart below contains AAA4 Staff’s best estimation of the maximum allowable amounts that can be awarded at this time.

AAA4 awarded the full amount of OCAM Nutrition dollars to existing Title III-C Nutrition Providers based upon their current proportional shares of baseline State and federal funds.

Local Master Plan for Aging Supplemental Summary

California's Master Plan for Aging (MPA) is a multi-sector "blueprint" providing a comprehensive framework to address and plan for the current, emerging, and future needs of California's aging population. California's MPA is a national model that has inspired communities across California to engage in similar efforts at the local level (e.g., county, city, town). California communities report actively engaging in the planning, development, or implementation of a multi-sector aging and disability action plan. To support these efforts, the state created a [Local Playbook](#) to inform the development of a Local MPA at the community level.

An Area Plan is complementary to a Local MPA. Some communities have leveraged the identified priorities, objectives, and activities in their Area Plans to include in their community's Local MPA. This optional supplemental summary is available for the AAA to describe how their organization is involved in any Local MPA efforts. The narrative summary should include the role(s)/responsibilities, partnerships, and actions being undertaken by the AAA to support the planning, development, or implementation of a Local MPA in their planning and service area – a sample of activities are below and listed in stages. Note that the narrative response should focus on the AAA's involvement and work related to their Local MPA activities, *not* the state-level MPA.

- **Stage 1: Raising Awareness & Community Education on Aging and Disability** (i.e., how the AAA is involved in developing educational materials; hosting educational webinars and events; or meeting with local aging and disability leaders, multi-sector partners, and/or elected officials)

- **Stage 2: Planning** (i.e., how the AAA is involved in forming or participating in a local Advisory Committee; conducting a community needs assessment; reviewing local data; or participating in planning and priority-setting sessions)

- **Stage 3: Development** (i.e., how the AAA is involved in identifying community-level goals, objectives, and activities toward the development of a Local MPA; sharing the draft Local MPA with stakeholders and the public for feedback; or finalizing the Local MPA)

- **Stage 4: Implementation** (i.e., how the AAA is involved in publicly releasing the Local MPA; raising public awareness to promote the Local MPA; working in a lead capacity on identified goals, objectives, and activities; or working with cross-sector partners to implement identified goals, objectives, and strategies of the Local MPA)

- **Stage 5: Evaluation** (i.e., how the AAA is involved in tracking the progress of the Local MPA's goals, objectives, and activities to measure the community impact of the Local MPA; publishing and promoting findings or outcomes of the Local MPA; or updating/revising the Local MPA for continuous improvement)

Using Stages 1-5 listed above, in your narrative response:

- Identify the geographic location that the Local MPA is serving (e.g., county, city, town). As needed, you may submit multiple responses for each Local MPA that the AAA is supporting within your planning and service area; and,
- Describe the AAA's role(s)/responsibilities, partnerships, and actions in a Local MPA for the planning and service area.

As stated in Section 7, Nevada, Sacramento and Yuba-Sutter have each developed their own Local Aging & Disability Action Plans which aim to advance goals that are compatible with the Governor's Master Plan

for Aging.

The Nevada Playbook (2021-26) and Implementation Plan were developed by the County Adult Services Department and the Nevada ADRC. Agency on Aging Area 4 (AAA4) is a core partner of the Nevada ADRC along with the FREED Center for Independent Living which is also the fiscal/administrative agent. The County of Nevada and/or FREED are the lead agencies for most of the strategies in the Nevada Implementation Plan. The Goals & Objectives section of this Area Plan references strategies where AAA4 or a funded partner of AAA4 is the lead agency.

The Sacramento Action Plan (2025-30) was developed by the County Department of Child, Family and Adult Services with input from various community partners, including AAA4. Specific strategies to implement the Action Plan are still in development at this time (September 2025). Four workgroups are developing specific strategies.

The Yuba-Sutter Aging and Disability Action Plan (2025-2030) and Implementation Playbook were developed by the Yuba-Sutter ADRC. AAA4 is a core partner and the fiscal agent for the Yuba-Sutter ADRC. Implementation work is happening in parallel with this Area Plan.

• Summarize any of the AAA's prior year's work and accomplishments.

From AAA4's perspective, the most consequential achievement in Nevada County include the opening of a Senior Center in Grass Valley after a 20-year gap.

In 2025, the County of Sacramento transitioned the LADAP Advisory group into an Action Committee with four separate working groups. In addition, the County conducted 9 community engagement activities which reached over 170 individuals.

In Yuba-Sutter, the ADRC funding for this project has ended. However, ADRC core partners are moving forward with the implementation of the 5 Action Teams. We have developed an ACTION TEAM tracker and worked to recruit community members to the TEAMS. We have also explored opportunities to fund a 1-year ACTION TEAM Coordinator to assist with recruitment, team leader support, and administration support (notes, agendas, invites, materials, etc.).

• Outline any of the AAA's planned future work.

Representatives from Nevada County plan to attend AARP's Regional Roundtable to meet other folks from Age-Friendly Communities and to discuss what's working well, what challenges they are experiencing and to identify opportunities for AARP to assist.

By June 30, the County of Sacramento plans to launch an Age & Disability Website which will feature a public-facing Progress Data Dashboard to track their work across 4 goals.
